

# Victoria Occupational Therapy Driver Assessors

## Occupational Therapy Driving Assessors (OTs) are independent health practitioners who undertake driving assessments at DTP Medical Review's request.

The OTs included on the below list are registered with the Australian Health Practitioner Regulation Agency (AHPRA) and are NOT employees of the Department of Transport and Planning (DTP). OTs provide driving assessment reports to Medical Review, however they are independent of Medical Review.

### Important Information

Medical Review and DTP **do not** endorse or approve any OT on the list. The names and contact details are provided for information purposes only.

Licence holders are required to cover the costs of their occupational therapy driver assessments.

Costs and charges for an occupational therapy driver assessment can vary, depending on location, test complexity, duration and reassessment requirements. Medical Review and DTP do not regulate their fees.

It is recommended that drivers discuss fees and charges with their OT driving assessor before they make an assessment booking.

### How to use this list

Please review the attached list to find a suitable OT experienced in driver assessments. Your local hospital or medical centre may also be able to assist you to find a suitable OT.

OTs generally work in specific geographical areas. Choose an OT from the list who works in your area.

This occupational therapist driver assessor list is sorted by service area regions (metropolitan and rural areas).

Occupational Therapy driver assessments may be partly or fully paid by an insurance scheme or through health services if you meet eligibility criteria.

For example:

- Rehabilitation services available through public/private hospitals or community health services if you have obtained treatment for a health condition (e.g. stroke, neurological or mental health condition)
- TAC or WorkCover if you have transport or work injuries
- Department of Veterans Affairs Health Card recipients may be able to access funding if vehicle modification prescription is required due to injury incurred during service.
- Private health insurance
- National Disability Insurance Scheme

Your GP, medical specialist, the occupational therapy department at your local hospital or health centre, or the Disability/Aged care co-ordinator at your council may be able to help.

Centrelink may offer loan schemes to support funding the cost of driver assessment and rehabilitation. This should be discussed with the OT at the time of booking the assessment.

If you've previously spoken to an OT about a driver assessment, please contact them before contacting an OT you don't know.

You may have a limited amount of time to complete the driver assessment so you should contact your chosen OT as soon as possible to organise your assessment.

## All Metropolitan Areas

### Georgina Bell

P: (03) 9381 1262

E: georgina@communityot.com.au

**Assessment types:** Car, motorcycle and heavy vehicle

**Service areas:** All metropolitan areas and Mornington Peninsula.
