

# Building Your Life Changing Career – Where Passion Meets Purpose

## NHG HOSPITAL CLINICIAN SCHEME

### FOR THE EXTRAORDINARY

*"I joined the HC scheme to broaden my skills, beyond the acute care setting, in working with diverse patient populations.*

*My experience has been rewarding and enriching throughout the different rotations!"*

*Where your clinical expertise impacts and touches lives every day.*

*As an NHG Hospital Clinician, you will play a pivotal role in leading and delivering patient care services; including taking on the role of a Principal Doctor!*

## Join the Hospital Clinician Scheme!

Imagine being central to patient care, where your clinical skills change lives every day. As a Hospital Clinician, you'll lead and deliver outstanding care at NHG's hospitals. Take the chance to be a Principal Doctor and make a lasting impact in healthcare!

In a dynamic and meaningful collaboration with specialists, nurses, and allied health professionals, you'll be at the heart of our multidisciplinary care team, driving patient care through:

- Conducting initial assessments and implementing effective management strategies
- Engaging in routine reviews, thorough documentation, seamless communication, and performing straightforward procedures
- Recognizing and initiating life-saving resuscitation for critically ill patients, with guidance from senior doctors

Broad-based clinical exposure through structured rotations

Support for continuing education and professional certifications

Protected training and 10 days of conference leave per year

Leadership coaching & development

AMS ratified Diploma at the end of the 2-year programme

Integrated healthcare role with leadership responsibilities (e.g. education, administration & research)

Progressive remuneration package

Ready to broaden your horizons and venture into leadership, education, and administration beyond clinical care?

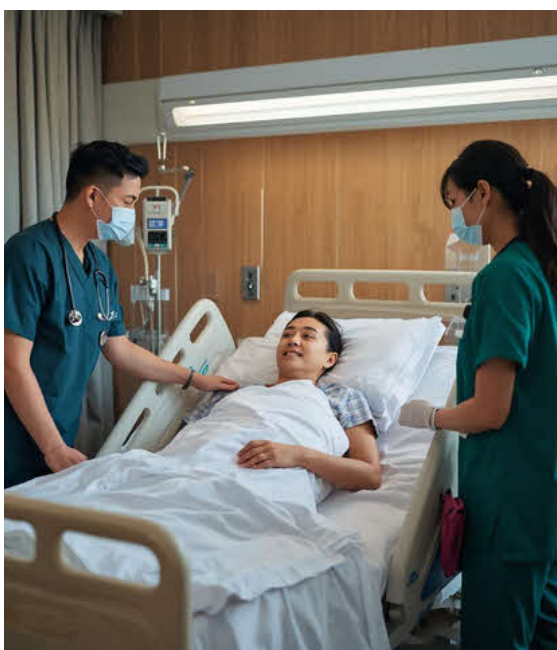

Looking for Early Entry? Eligible doctors may join from PGY 4 onwards!

Looking for broad-based Competencies? All Hospital Clinicians will have to take a diploma exam (Graduate Diploma in Hospital Practice) administered by the Academy of Medicine, Singapore

You can opt between the medical or peri-operative domains with exposure to a broad spectrum of clinical disciplines:

Medical	Peri-operative
<p><b>Clinical Areas:</b> Medicine, Intensive Care Unit (ICU), Emergency Department, and Community Hospital</p> <p><b>Core Responsibilities:</b> Acute resuscitation and management of common medical conditions</p> <p><b>Scope of Practice:</b> Delivering patient care with a semi-autonomous approach</p>	<p><b>Clinical Areas:</b> Surgery, Orthopaedics, Anaesthesia, and related specialties</p> <p><b>Key Role:</b> Collaborate with the surgical team to lead and coordinate peri-operative medical care for inpatients</p>

## Eligible? To qualify, you must be either:

Singaporean, Singapore Permanent Resident, or local-trained foreign doctor with at least 2 years of full-time experience as a Medical Officer (MO) or equivalent in Singapore.

Foreign-trained doctor with at least 5 years of practice as an MO in the MOPEX pool and currently employed by MOH Holdings.

Have a letter of recommendation from a supervisor or senior clinician.
