

Entrustable Professional Activities (EPA) Workshop

PROGRAMME DESCRIPTION

This workshop examines Entrustable Professional Activities (EPAs) as a framework for competency-based medical education, exploring their theoretical foundations and practical implementation in clinical training programmes.

DURATION: 1 DAY

This hands-on session equips healthcare educators with practical skills to implement EPAs effectively in their teaching environments. Through interactive discussions and real-world scenarios, participants will learn to design, assess, and evaluate EPAs that bridge the gap between theoretical knowledge and clinical practice. The workshop guides participants through the process of creating assessment tools, establishing appropriate supervision levels, and making informed entrustment decisions. Whether you are new to EPAs or seeking to enhance your existing implementation, this workshop offers valuable insights into developing healthcare professionals who demonstrate measurable competencies for safe and effective patient care.

PROGRAMME CONTENT

This programme comprises the following learning topics:

- Foundations of EPAs- from Theory to Practice
- Designing Effective EPAs - Structure and Components
- Assessment Strategies and Entrustment Scales
- Making Entrustment Decisions - Evidence and Documentation
- Implementation and Integration Strategies
- Quality Assurance and Programme Evaluation

TARGET AUDIENCE

Clinical educators and teachers , including APDs, CCFMs, Clinical Instructors and Subject Leads from all healthcare professions

LEARNING OUTCOMES

At the end of the programme, participants will be able to:

- Understand the core concepts of Entrustable Professional Activities (EPAs) and their application in medical education
- Design context-specific EPAs with clear assessment criteria and entrustment levels
- Make informed decisions about learner entrustment using evidence-based approaches
- Integrate EPAs into existing educational programmes

METHODOLOGY

This programme is designed to be an interactive learning experience for participants. Methodologies used will include:

Group Discussion

Case Study

TRAINING CAPACITY

30 participants per run

ABOUT THE ORGANISER

Officially established on 19 July 2002, the NHG College plays an instrumental role in facilitating the continuous learning and development of our workforce, as well as, promoting systems improvement and driving leadership development in NHG Health. NHG College collaborates with renowned institutions and industry partners to build the pipeline and collective capacities of our leaders, educators, healthcare professionals and staff to support NHG Health in serving and managing the health of our patients and the population.
