

Understanding The Accreditation Standards in Healthcare

Steps Towards Attaining a Desired and Achievable Level of Performance

PROGRAMME DESCRIPTION

Standards of care, whether national or international, voluntary or mandatory, are important to define what constitutes acceptable levels of quality and safe care.

DURATION: 0.5 DAY

Standards are based on scientific evidence and represent best practices that are widely used by healthcare professionals. The use of standards in daily clinical practice helps to provide better outcomes for everyone in the system, reduce risks and optimise the use of limited resources. This course aims to help staff understand the intent and scientific evidence behind the standards and how to use the standards to guide the processes of clinical care and other supporting functions.

LEARNING OBJECTIVES

At the end of the programme, participants will be able to:

- Understand the intent and scientific evidence behind standards
- Implement standards using shared tips and pitfalls
- Apply standards, including in specific contexts, situations or patient groups where relevant
- Use suggestions provided on how to check for compliance and improvement opportunities after implementation

TARGET AUDIENCE

Doctors, nurses, allied health professionals, pharmacists and administrators including:

- Team Leads
- Managers
- Head of Departments
- Champions for Selected Areas (e.g. Medication Management, Facilities Management, Quality and Safety)

Pre-Requisites

- Participants should read the materials provided and familiar themselves with the required standards prior to attending the programme.

ABOUT THE ORGANISER

Officially established on 19 July 2002, the NHG College plays an instrumental role in facilitating the continuous learning and development of our workforce, as well as, promoting systems improvement and driving leadership development in NHG Health. NHG College collaborates with renowned institutions and industry partners to build the pipeline and collective capacities of our leaders, educators, healthcare professionals and staff to support NHG Health in serving and managing the health of our patients and the population.
