

MEDICATION SAFETY (BASIC)

Enhancing Safe Medication Practices

ABOUT THE COURSE

This workshop offers a broad perspective of medication safety and equips front-line healthcare providers with the basic knowledge and skills for improving medication safety in their workplaces.

Participants will learn how medication errors occur, how to report and learn from medication-related incidents, and how to formulate effective system-level solutions in medication use/handling processes.

LEARNING OBJECTIVES

At the end of the workshop, participants will:

- ▶ Have a broad perspective of medication safety in the processes of medication management and use
- ▶ Be equipped with the fundamental knowledge and skills to:

- 
- Understand why medication errors can occur and know the different types of human errors
 - Understand the importance of recognising, speaking up, proactive reporting, and thorough analysis of unsafe medication practices, medication errors, and near-misses
 - Write an incident report
 - Understand "Just Culture"
 - Learn from errors, improve current processes and prevent recurrence
 - Engage patients and caregivers in safe medication use
 - Use established communication tools for routine patient care scenarios and activities

TARGET AUDIENCE

All staff including:

- Pharmacy Technicians
- Pharmacy Assistants
- Senior Enrolled Nurses
- Enrolled Nurses

COURSE DURATION

1 day
