

Auburn Gresham

Dan Ryan Woods

Auburn Gresham is known for its bungalow-style housing and brick two flat apartments. The Chicago Public Library's Thurgood Marshall Branch is located in this community and features a large auditorium, and houses community artwork.¹

Social Determinants of Health²

Social determinants of health are social, economic, and physical conditions in which people are born, live, and work that affect health and well-being. For example, where you live can limit access to healthy foods, this can in turn increase one's risk for obesity and other chronic conditions related to diet.

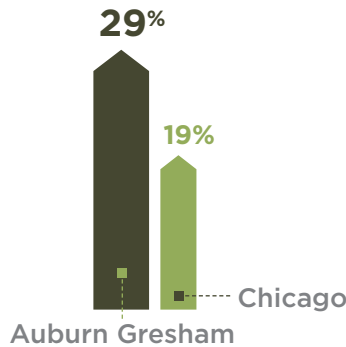

Economic Factors

Median household income

\$29,285

Chicago: **\$53,006**

Access to Care

Access to quality health care services is important for preventing and managing diseases and achieving health equity. High cost of care, inadequate insurance coverage, and lack of availability of quality services generally lead to barriers in clinical care.

52%

of pregnant women received early and adequate prenatal care⁹

66%

report receiving colorectal cancer screening⁸

Health Behaviors⁸

Health behaviors are individual actions we take to prevent illnesses or maintain good health such as exercising and eating a balanced diet. Health behavior is greatly influenced by the social and economic conditions in which people live. For example, it is difficult to walk in the neighborhood to get exercise when you do not feel safe.

33%

report not participating in any physical activity or exercise in the past month

43%

report drinking soda or sweetened drinks everyday

27%

report being a smoker

20% report eating five or more servings of fruits and vegetables daily

Health Outcomes¹⁰

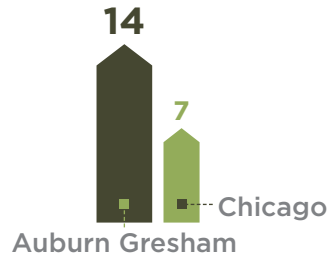

Health outcomes are the measures that define the health and wellbeing of the community. Health outcomes are a result of social determinants of health, access to clinical care, and health behaviors.

Top Causes of Death

1. Heart Disease
2. Cancer
3. Injury
4. Diabetes-related
5. Strokes
