

Englewood

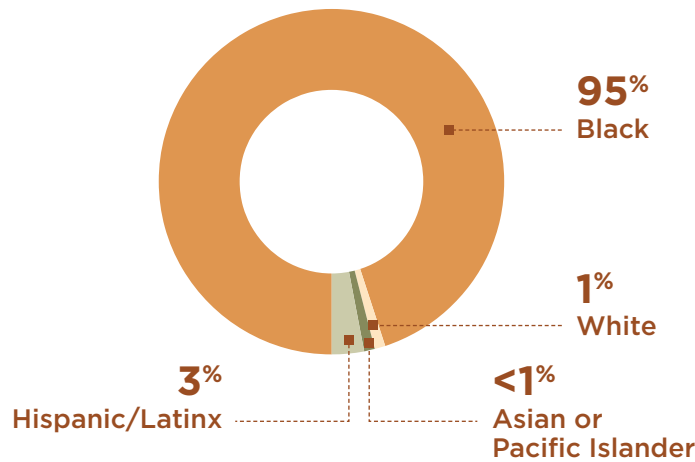

Kennedy King College

Englewood is home to the 200 housing units built by the Antioch Baptist Church, which are public funded apartments for elderly people, one of the first of its kind.¹ Teamwork Englewood was started in this community, an enrichment program that helps with economic and neighborhood development.² In recent years, economic development has been on the rise in this community with the additions of Kennedy King College, Whole Foods, and expansion of the St. Bernard Hospital.

Social Determinants of Health³

Social determinants of health are social, economic, and physical conditions in which people are born, live, and work that affect health and well-being. For example, where you live can limit access to healthy foods, this can in turn increase one's risk for obesity and other chronic conditions related to diet.

Economic Factors

Median household income

\$22, 507

Chicago: **\$53,006**

Population living in poverty⁵

72% of households are at risk for food insecurity⁷

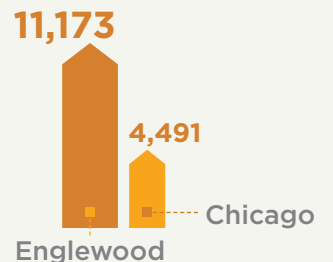

Physical Factors

51%

of adults report that they feel safe in their neighborhood "most or all of the time"⁸

Violent crime incidents⁸ Per 100,000 Population

Access to Care

Access to quality health care services is important for preventing and managing diseases and achieving health equity. High cost of care, inadequate insurance coverage, and lack of availability of quality services generally lead to barriers in clinical care.

of pregnant women received early and adequate prenatal care¹⁰

report receiving colorectal cancer screening⁹

Health Behaviors⁹

Health behaviors are individual actions we take to prevent illnesses or maintain good health such as exercising and eating a balanced diet. Health behavior is greatly influenced by the social and economic conditions in which people live. For example, it is difficult to walk in the neighborhood to get exercise when you do not feel safe.

report not participating in any physical activity or exercise in the past month

report drinking soda or sweetened drinks everyday

report being a smoker

26% report eating five or more servings of fruits and vegetables daily

Health Outcomes¹¹

Health outcomes are the measures that define the health and wellbeing of the community. Health outcomes are a result of social determinants of health, access to clinical care, and health behaviors.
