

Skyway Bridge

South Deering was known as “Irondale” during early years. This was due to the growing amount of steel mills in the area.¹ It is home to Trumbull Park, a cornerstone of the community and a hub for many of the community oriented activities.²

Who lives here?³

Age

Social Determinants of Health³

Social determinants of health are social, economic, and physical conditions in which people are born, live, and work that affect health and well-being. For example, where you live can limit access to healthy foods, this can in turn increase one's risk for obesity and other chronic conditions related to diet.

Economic Factors

Median household income

\$31,878

Chicago: \$53,006

Population living in poverty⁵

Unemployment

Education⁶

37%

of households spend 30% or more of their annual income on housing costs

45%

of children are living in poverty⁵

31% of households are receiving food stamps

53% of households are at risk for food insecurity⁷

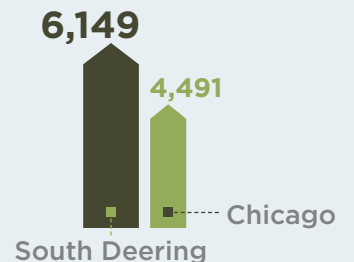

Physical Factors

63%

of adults report that they feel safe in their neighborhood "most or all of the time"⁸

Violent crime incidents⁸ Per 100,000 Population

Access to Care

Access to quality health care services is important for preventing and managing diseases and achieving health equity. High cost of care, inadequate insurance coverage, and lack of availability of quality services generally lead to barriers in clinical care.

53%

of pregnant women received early and adequate prenatal care¹⁰

67%

report receiving colorectal cancer screening⁹

Health Behaviors⁹

Health behaviors are individual actions we take to prevent illnesses or maintain good health such as exercising and eating a balanced diet. Health behavior is greatly influenced by the social and economic conditions in which people live. For example, it is difficult to walk in the neighborhood to get exercise when you do not feel safe.

38%

report not participating in any physical activity or exercise in the past month

28%

report drinking soda or sweetened drinks everyday

20%

report being a smoker

22% report eating five or more servings of fruits and vegetables daily

Health Outcomes¹¹

Health outcomes are the measures that define the health and wellbeing of the community. Health outcomes are a result of social determinants of health, access to clinical care, and health behaviors.

Top Causes of Death

1. Cancer
2. Heart Disease
3. Injury
4. Diabetes-related
5. Strokes

Infant Mortality

Deaths per 1,000 live births

Life Expectancy at Birth

75 years

Chicago: 77 years
The Loop: 82 years

Disease Burden Among Adults⁹

46%
have high blood pressure

42%
are obese

19%
are diabetic

21%
have asthma
