Medicine**

**THANK YOU**  
FOR HELPING US PROTECT  
OUR MOTHERS AND BABIES.

**DEAR FRIENDS AND FAMILY,**

The flu season will be here soon and we must protect women who are pregnant, new moms and babies from a flu infection. They can easily get sick from contact with visitors, friends and family members who may only have mild flu symptoms.

**Here are some ways you can help protect  
women who are pregnant, new moms and babies:**

All pregnant women should  
get a flu vaccine.

All family members and  
caregivers of babies should  
get a flu vaccine.

Wear a mask if you think  
you have flu symptoms.

Wash your hands right before  
coming into contact with a  
pregnant woman or a newborn.

FOR MORE INFORMATION ON THE FLU VACCINES  
contact the Family Flu Clinic at **773-702-6169**  
or visit **[UChicagoMedicine.org/flu](https://www.uchicago.edu/flu)**

*Family Flu Clinic is by appointment only.*
