

Access your health information and billing details in one place.

Go paperless with ease and convenience with MyChart.

UChicago Medicine is moving to paperless billing on Tuesday, April 4, 2023.

UChicago Medicine will be paperless beginning Tuesday, April 4, 2023. If you are enrolled in MyChart and have not indicated a prior preference, you will no longer receive a printed copy of your billing statements. Patients will be notified of new statements through email, text messages and MyChart.

What do I need to know about going paperless?

- 1** MyChart patient accounts will be switched to the paperless billing option automatically on April 4, 2023. These include physician and hospital bills. Statements will be shared through MyChart, rather than mailed to the patient. This change will affect patients who have not previously opted out of paperless billing.
- 2** Patients who have opted to receive paper billing statements will continue to receive statements in this format.
- 3** Patients who are enrolled in paperless billing will receive notification of a new statement based on their preferred form of communications, i.e., push notifications through the MyChart app and/or email.
