Memorial Hermann Surgery Center Kingsland earns MBSAQIP® Designation

Katy, TX (December 5, 2022) –Memorial Hermann Surgery Center Kingsland has earned accreditation from the Metabolic and Bariatric Surgery Accreditation and Quality Improvement Program (MBSAQIP®), a joint quality program of the American College of Surgeons (ACS) and the American Society for Metabolic and Bariatric Surgery (ASMBS).

The MBSAQIP accreditation is a nationally acknowledged recognition of Memorial Hermann Surgery Center Kingsland’s commitment to meeting high standards for patient safety and quality in the greater Houston region. The MBSAQIP Standards, Optimal Resources for Metabolic and Bariatric Surgery, ensure that metabolic and bariatric patients receive multidisciplinary medical care, which improves patient outcomes and long-term success. MBSAQIP-accredited centers offer preoperative and postoperative care designed specifically for patients with obesity.

Memorial Hermann Surgery Center Kingsland’s commitment to quality care begins with expertly trained staff and the leadership of an experienced bariatric surgeon. The program is tasked with continuous review of surgical data and improving the structure and outcomes expertise necessary to provide safe, efficacious, and high-quality care to all metabolic and bariatric patients.

To earn the MBSAQIP accreditation, the facility met essential criteria for staffing, training, facility infrastructure, and patient care pathways, ensuring its ability to support patients with obesity. The center also participates in a national data registry that yields semiannual reports on the quality of its surgical outcomes and identifying opportunities for quality improvement.

“Receiving accreditation as an MBSAQIP-certified Ambulatory Surgery Center is an accomplishment achieved by our entire dedicated medical staff and facility team,” said Linh Su, Memorial Hermann Surgery Center Kingsland administrator. “This recognition is representative of our commitment to high-quality bariatric care. We are proud of this milestone in our journey to provide the highest level of compassionate, expert bariatric care to patients in our community.”

About Memorial Hermann Surgery Center Kingsland

Memorial Hermann Surgery Center Kingsland is an affiliate of United Surgical Partners International (USPI). The facility’s state-of-the-art equipment allows surgeons to perform procedures in the specialty areas of orthopedics, podiatry, pain management, gastroenterology, gynecology, general surgery, ophthalmology and cosmetic and plastic surgery. The facility is accredited by The Joint Commission.

Memorial Hermann Surgery Center Kingsland is a facility in which physicians have an ownership or investment interest. The list of physician owners or investors is available upon request.

About the American College of Surgeons

The American College of Surgeons (ACS) is a scientific and educational organization of surgeons that was founded in 1913 to raise the standards of surgical education and practice and to improve the quality of care for surgical patients. Its achievements have placed it at the forefront of American surgery and have made the College an important advocate for all surgical patients. The College has more than 82,000 members and is the largest organization of surgeons in the world.

About the American Society for Metabolic and Bariatric Surgery

The American Society for Metabolic and Bariatric Surgery (ASMBS) is the largest organization for metabolic and bariatric surgeons in the world, with more than 4,200 members. It is a not-for-profit organization that works to advance the science of metabolic and bariatric surgery. The ASMBS is committed to educating medical professionals and the lay public about metabolic and bariatric surgery, including the associated risks and benefits, as a treatment option for obesity.
