

Speech pathology

Communicate with confidence

At BlueCare, we understand how changes in communication or swallowing can affect your confidence and quality of life. Our experienced speech pathologists provide personalised support to help you express yourself, stay connected, and enjoy mealtimes safely.

Whether you're experiencing age-related changes, recovering from a stroke or managing a neurological condition, we're here to help.

Helping you stay connected and safe

We support people living with:

- Communication difficulties
- Language or memory issues
- Swallowing and mealtime difficulties (dysphagia)
- Speech or voice changes
- Neurological conditions such as Parkinson's disease or stroke
- Age-related decline in speech or cognition

Sessions are delivered in your home or at selected BlueCare centres, depending on your needs.

How speech pathology can help

We'll help you:

- ✓ Improve speech clarity and fluency
- ✓ Strengthen communication and social connection
- ✓ Manage cognitive and memory changes
- ✓ Eat and drink safely with swallowing support
- ✓ Reduce the risk of choking or aspiration
- ✓ Regain confidence after illness or injury

We also support families and carers with communication strategies and mealtime plans.
