Investment objective

The investment objective of the Fund is to achieve long-term capital growth through investment in listed equities.

Investment policy

The Fund has a multi-manager structure, primarily investing in a range of unconstrained segregated accounts that tap into the top 10-20 global equity investment ideas of who we consider some of the world's most talented stock pickers, creating a high conviction, high active share portfolio. The underlying equity managers all carry our highest research rating and have been assembled together to create a complementary portfolio which is well diversified across investment style, size, sector, and country. The resulting portfolio is a risk controlled fund where returns are primarily expected to be driven by stock selection skill. As long-term investors, the Fund incorporates our approach to sustainable investing and employs a provider of equity ownership services to provide proxy voting recommendation, and engage with companies and policy makers on behalf of investors. In general, we prefer this engagement approach, however in some circumstances an exclusionary approach is appropriate. The Fund seeks to avoid investments in companies deemed to be involved in controversial weapons, as well as in companies that derive significant revenues from thermal coal, oil sands or tobacco in accordance with its Exclusions Policy.

Expected risk and return

The Fund is actively managed and in the context of the investment objective, the Fund is managed with the intention of outperforming the MSCI World benchmark by 2% per annum net of fees over the medium to long term. The Fund is expected to have a level of active risk (tracking error) that is typically in the range of 2% to 4% per annum, but this range does not act as a limit and can be exceeded from time to time.

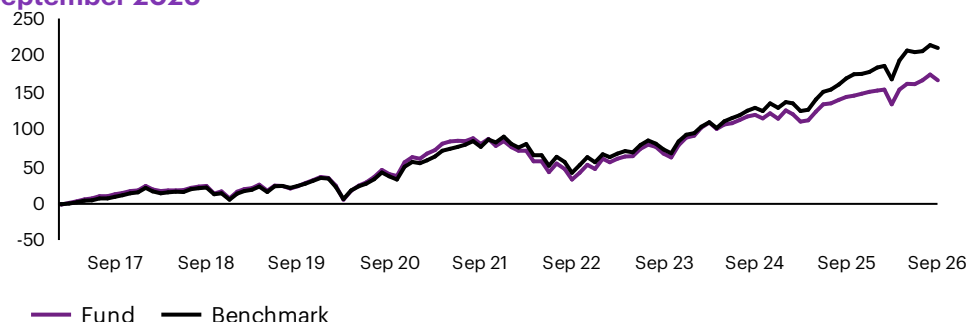

Expected return and risk considered under normal market conditions. Return target is indicative only and is not guaranteed.

Performance, analysis and valuation data sourced from Northern Trust International Fund Administration Services (Ireland) Limited and Towers Watson Investment Management Limited as at 30 September 2026. Please note that until 18 February 2026, the Fund was authorised as a qualifying investor alternative investment fund ("QIAIF") and was re-authorised by the Central Bank as a UCITS on 19 February 2026. Accordingly, past performance data for the Fund prior to 19 February 2026 relates to the period during which the Fund was authorised as a QIAIF. The investment policy, strategy and portfolio composition were not substantially altered as a consequence of the transfer to the UCITS regime.

MSCI World (ND) sourced from MSCI Inc. (data provided "as is") as at 30 September 2026.

Past performance does not predict future returns. The value of investments and the income from them can go down as well as up; this may be due, in part, to exchange rate fluctuations.

Key risk warnings

This section contains important regulatory disclosures and risk warnings that are relevant to the material in this document. You should read this section carefully, as it is intended to inform and protect you.

- **This is a marketing communication. Please refer to the fund prospectus and any other relevant documentation before making any final investment decisions.**
- **Towers Watson Investment Management Limited ("TWIM") has approved this document for issue to Professional Clients only.**
- **The value of all investments and the income from them can go down as well as up. This means you could get back less than you invested.**
- **Changes in exchange rates may cause the value of investments to decrease or increase.**
- **Securities and derivatives trading in which the portfolio funds engage are speculative and involve a substantial risk of loss.**
- **Past performance does not predict future returns.**
- **If the Fund is denominated in a currency other than your home currency, movements in exchange rates may, if not hedged, have a significant impact on the value of (and income from) your investment.**

Notes

Unless otherwise stated, all data in this document is as at 30 September 2026.

Per the Sub-Fund (GEFF)'s SFDR Article 8 designation, The Investment Manager intends for the Sub-Fund to achieve an approximately 50% reduction in greenhouse gas emissions by 2030 in its portfolio and continue beyond that time to further reduce greenhouse gases from the portfolio with an aim of net zero emissions by 2050. Progress is measured using multiple metrics in the form of a 'climate dashboard'. For further information, please see the fund prospectus.

The Fund's minimum initial subscription amount for each unit class is set out in the supplement to the prospectus.

Business days are those in Ireland, UK and the US.

Please see the Fund's Prospectus for full terms applicable to the Fund.
