

## About the Engagement:

TripWire engaged XCentium to build an enterprise digital CMS solution in a SaaS environment with little to no code.

At the time, TripWire's team was unable to launch deployments. They also wanted to introduce cutting edge security features.

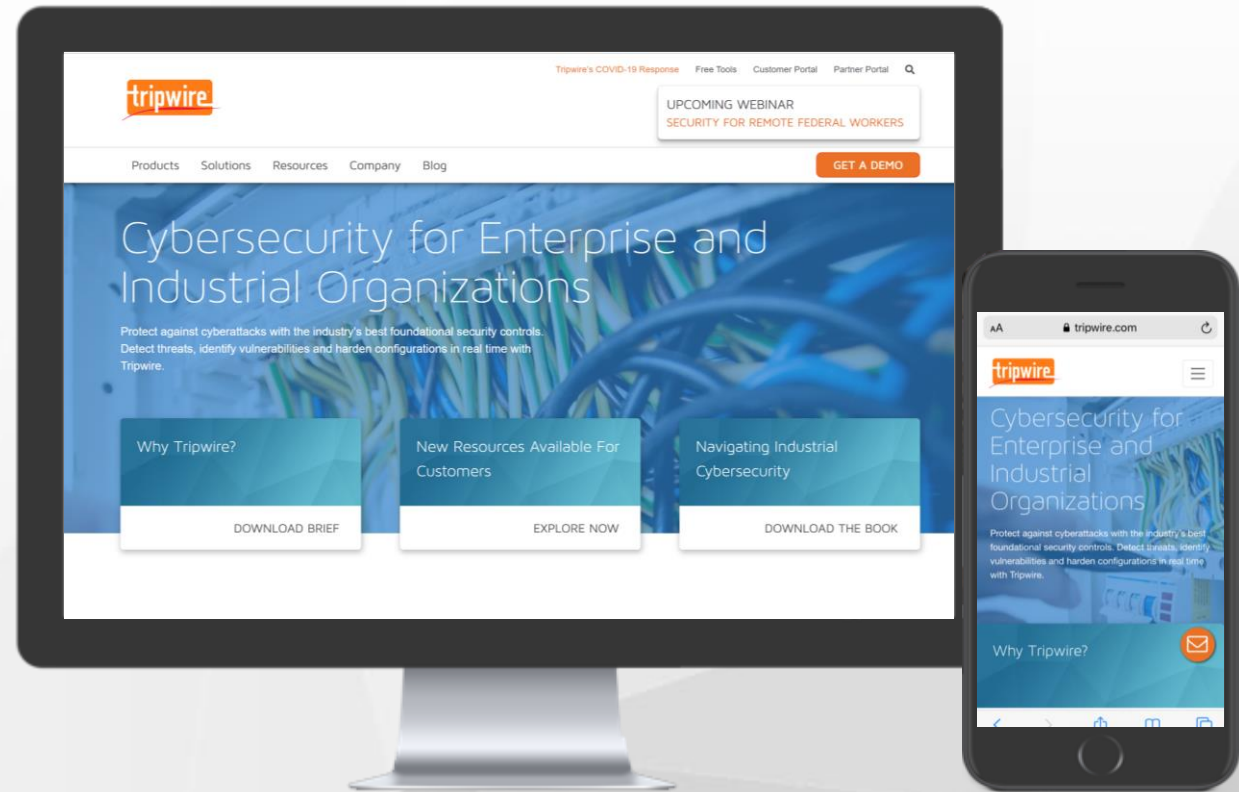

## Key Outcomes:

**750** PAGES OF CONTENT

**95%** PAGES BASED ON  
PRE-CONFIGURED  
CONTENT AND CODE

**11** WEEKS FROM DESIGN  
HAND OFF TO LAUNCH

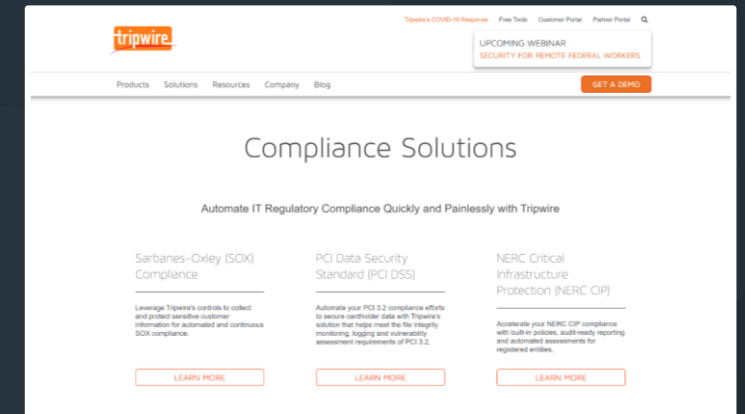

**Our Mission:** To deliver an enterprise Sitecore website in a highly secured SaaS environment for TripWire, a trusted voice in cybersecurity.

Tripwire is the trusted leader for establishing a strong cybersecurity foundation. Partnering with Fortune 500 enterprises, industrial organizations and government agencies, Tripwire protects the integrity of mission-critical systems spanning physical, virtual, cloud and DevOps environments.

# TripWire: Built with no to low code with Flex

- ✓ 95% based on pre-configured content and designs
- ✓ 5% based on code to facilitate TripWire's 'secret sauce'
- ✓ Able to build forms, pages, content and deploy with no developer interface
- ✓ Fully responsive based on configuration
- ✓ Configurable animations of objects on pages without code
- ✓ Marketo integrated for demand gen leads
  - Gated content
  - Connected to Salesforce through Marketo
  - Progressive intelligence forms built in Flex
- ✓ JavaScript based event system enables client to configure events on pages with no code
- ✓ Based on Sitecore JSS & headless

# TripWire: Key integrations

In addition to these main integrations, other pieces to the solution include:

- ✓ Deploying to Azure Cloud allows **reliability and scalability**
- ✓ Sucuri WAF & CDN and Verizon CDN ensures a **highly secured site with limited attack vectors**
- ✓ XCentium Cloud Services ensures an **SLA of 99.99%**
- ✓ Live Chat and Google Analytics integrations rounds out the TripWire solution
