Composable

Built with headless Sitecore Order Cloud, Content Hub ONE, and Discover (search), you can easily connect to other tools and platforms without the need for upgrades.

Storefront Accelerator

Pre-built D2C commerce storefront that supports ready-to-use Promotions, Search, CLP, Subscriptions, Memberships, Loyalty Programs, featured collections, PLP, PDP, plug-ins (payments, taxes, catalog imports), pricing imports, and more.

Admin Accelerator

Pre-built admin dashboard that supports product and category management. We can extend the framework for additional admin features such as Order Management, RMA, User Management, etc.

Integrations & B2B Features

Integrated with various payment and fulfillment options to offer an enhanced customer experience. Other B2B features include quantity-based price breaks, price schedules, sale pricing, and multi-location inventory.
