### WHAT IS THIS PRODUCT?

#### Type of product:

Simple Wealth is a unit-linked investment product in the form of a life insurance policy between the policy owner and Zurich International Life Ltd ('Zurich').

#### Objectives of the product:

Simple Wealth is a single premium product designed to allow policy owners to invest in Zurich's range of unit-linked investment options ('funds'). It is designed to allow investors with a broad spectrum of risk appetites to choose from the available funds and select funds that match their risk appetite. The range of funds offered includes equity funds, bond funds, cash funds, funds with a combination of assets as well as other investment options. The return for you, the investor, will depend on the performance of your chosen funds. Information regarding the available funds can be found at [www.zurich.ae](http://www.zurich.ae).

#### How is the return determined?

Your policy value is determined by the premiums you pay, the charges we deduct from your policy and the investment performance of your chosen funds. The value of your policy value will rise and fall in line with the value of your chosen funds.

#### Is income distributed or re-invested?

Income from the funds will either be reinvested in the fund by the fund manager or distributed as additional units to your policy.

#### Intended investor:

Simple Wealth is intended for investors between the ages of 18 and 74 who can invest USD 15,000 or more. You can also pay additional single premiums of at least USD 1,500. It is aimed at people who do not need instant access to their money and are willing to leave their capital invested for at least 5 years.

The intended investor should have the ability to understand and bear the risks associated with this product, including the ability to bear potential investment losses, if any. For more details on this product's risks, please refer to the section below titled 'WHAT ARE THE RISKS AND WHAT COULD I GET IN RETURN?'.

There can be up to 2 lives insured on the policy.

#### Insurance benefits:

In the event of the death of the relevant life insured we will pay the following:

- If the youngest life insured was aged 50 or less at the start of the policy and the death is within 15 years of the policy start date, we will pay the higher of the premiums paid (less any withdrawals) or 101% of the surrender value; or
- If the youngest life insured was aged between 51 and 60 at the start of the policy, and the death is within 5 years of the policy start date we will pay the higher of the premiums paid (less any withdrawals), or 101% of the surrender value; or
- 101% of the policy's surrender value in all other cases.

#### Product term:

The policy has no termination date and will continue until fully surrendered or until the death of the last remaining life insured.

Please note that Simple Wealth is not Shari'a compliant.

### WHAT ARE THE RISKS AND WHAT COULD I GET IN RETURN?

#### Summary Risk Indicator (SRI)

Risk Indicator	1	2	3	4	5		This SRI provides you with the average risk rating of all the fund choices available to the product at the time of the assessment. The level of risk and performance your policy will be exposed to will depend on the funds you choose and their exposure to risk.
	← Lower Risk Higher Risk →						

SRI assessed on 1 January 2020.

Simple Wealth offers a range of funds with risk ratings that range between 1-4. You should ensure that you are aware of the risks relating to funds that you choose under this product, including reading the relevant fund literature. It is **your responsibility** in conjunction with your adviser, to select appropriate underlying funds to match your risk profile. For information about the funds available on Simple Wealth please refer to the fund centre on our website [www.zurich.ae](http://www.zurich.ae).

Simple Wealth does not include any capital guarantee or protection from future market performance, so you could lose some or all of your investment. If the underlying investments chosen are held in a currency which is different to that of your policy, currency conversion charges will apply and will be charged to the policy. Changes in exchange rates between currencies could reduce your policy value.

Some investments may have fees associated with them, as set by the underlying fund manager. If the growth of the underlying investments does not cover the charges of the product, then this will reduce the value of your investment. A fund manager may exercise their right to suspend dealing in their funds or underlying assets. If this happens, we can delay selling or buying units in the funds and can also delay any payment to you if the fund manager has deferred the payment to us for any reason.

Your adviser will provide you with a personalised illustration in which you select a growth rate which is used to provide you with estimated performance scenarios and future surrender values, assuming policy charges are deducted and all premiums are paid. If the actual growth rate achieved is less than your selected growth rate, the policy values you receive will be less than illustrated. The actual risk can vary significantly if you fully surrender your policy at an early stage and you may get back less than you invested. If you fully surrender Simple Wealth within 3 years of the payment of a premium, a surrender penalty will apply which will reduce the amount you receive. Depending on your personal circumstances at the time (including your country of tax residence) you may be liable to pay tax on the proceeds of the policy.

### WHAT HAPPENS IF ZURICH IS UNABLE TO PAY OUT?

Zurich is a participant insurer in the Isle of Man Policyholders Compensation Scheme established under the Isle of Man Life Assurance (Compensation of Policyholders) Regulations 1991. If Zurich becomes insolvent, the Policyholders' Compensation Fund established under that Scheme shall pay a sum up to 90% of the amount of any liability of Zurich under this contract.

### WHAT ARE THE COSTS?

The total impact of the costs below on the return of the policy can be seen by referencing the Reduction in Yield, which can be found in your personalised illustration.

The intermediary who has advised you may not charge directly for the advice received if you take up this policy, although they may receive a payment from Zurich which Zurich will recoup from the charges you pay during the policy term. Advisors, distributors or any other person advising on or selling this product will provide information about any cost of distribution that is not already included in the costs specified below:

Underlying fund management charges	Charges are deducted from each fund by the fund managers. These can include the annual management charge (AMC), along with other fees and costs incurred in the running of the funds.	This is not an explicit charge deducted from your policy; fund charges are deducted daily by the fund manager before calculating the unit price of the fund.
Currency switch charge	0.175% of any amount switched between funds of different currencies.	This charge only applies if you switch between funds of different currencies, for example from a USD fund to a GBP fund. The charge is deducted from the 'switch-in' fund, immediately after the switch has been processed.
Currency exchange charge	If we need to convert your premiums or the policy proceeds from the policy currency to another currency, we use an exchange rate which includes a 1% margin in our favour.	This charge will only apply if you pay your premiums to us, or ask us to pay the policy proceeds to you in a currency other than the policy currency.

## HOW LONG SHOULD I HOLD IT AND CAN I TAKE OUT MONEY EARLY?

You have the right to cancel your policy within 30 days of receipt of your policy documents. You will need to complete and return the cancellation notice provided within your policy pack to us using the contact details in General Information on page 1. You can also cancel your policy before you receive your policy documents by contacting us. Zurich reserves the right to refund your premium less any fall in investment value that may have taken place during the 30 day period.

Simple Wealth is a long-term financial commitment and you should aim to hold your policy for at least 5 years. Depending on the fund or combination of funds you select, you may be more exposed to fluctuating capital values in the short term.

If you choose to fully surrender the policy within 5 years of the payment of a premium, there will be a surrender charge and you may not get all your money back. The size of the surrender charge will reduce over time. Your personalised illustration will provide an indication of the policy surrender values over time.

## HOW CAN I COMPLAIN?

If you need to complain about this product, please contact us using the details at the top of this document. You can ask us for a copy of our complaints handling process, and this is also detailed on our website.
