

Protecting Your Marine Exposures

Zurich Insurance has close to 150 years of underwriting expertise and financial stability. Zurich Benelux provides marine insurance for various domestic and international marine risks. We specialize in offering tailored solutions to safeguard your business against marine exposures.

Our Offerings

Marine Cargo

Marine cargo insurance covers the risks of physical loss or damage to goods whilst in transit and during incidental storage anywhere in the world. We offer stand-alone, annual, open cover marine cargo insurance, project cargo insurance with delay in start-up (DSU) extension as well as stock throughput insurance.

Cargo Liability

Covers carriers and logistics companies for loss or damage to cargo during transit.

Marine Hull Insurance

Marine Hull Insurance covers the risks of physical loss or damage to the vessel insured, including coverage for collision liability up to the vessel's insured value. We offer a tailor made hull insurance policy adapted to the needs of the insured.

Group Life and Disability cover for your crew members

Our International Group Risk Solutions policy provides you with packages, specifically tailored to your employee care strategy, providing the support you and your employees need. We offer a solution that provides group life and disability cover for internationally mobile employees of large multinational companies with a global footprint.

Our Capabilities

International Programs by Zurich (IPZ) to manage risk worldwide

IPZ is our solution to protect businesses across the globe. Insurance programs can be centrally-managed under one platform aligned with local regulations and providing a consistent standard of service worldwide. [Find out more](#)

Dedicated marine risk engineering expertise to manage exposures and mitigate risk

Our in-house risk engineers are here to provide insights, tailored solutions and risk management tools to help businesses prioritize and manage risks more effectively. With our extensive global experience and flexible solutions, businesses can be empowered to manage their risk improvement actions, make informed decisions and optimize their risk improvement budget.
