What is happening?

We have been notified by BlackRock Asset Management North Asia Limited, as Hong Kong Representative of BlackRock, that they will be evolving certain Underlying Fund(s) to align with new guidelines from the European Securities and Markets Authority (ESMA) on the use of ESG or sustainability-related terms in funds' names (the "ESMA Guidelines"), effective from May 6, 2025 (the "Effective Date").

The ESMA Guidelines will set specific requirements for funds that use terms like "Sustainability", "Environmental" and "Impact" in their names. For these funds, BlackRock will be typically required to apply EU Paris-aligned Benchmark (PAB) exclusions (these broadly prohibit investments in companies involved in controversial weapons or tobacco; having violated UN Global Compact principles or OECD Guidelines for Multinational Enterprises; or deriving revenues above certain specified thresholds from coal, oil, gas or electricity generation) (the "PAB Exclusions")¹.

Similarly, for funds using terms like "Social", "Governance" and "Transition" in their names, BlackRock will be typically required to apply EU Climate Transition Benchmark (CTB) exclusions (these broadly prohibit investments in companies involved in controversial weapons or tobacco; or having violated UN Global Compact principles or OECD Guidelines for Multinational Enterprises).

Additionally, any fund using ESG or sustainability-related terms will be required to ensure that at least 80% of its investments align with the environmental or social goals or sustainable investment objectives, as stated in the fund's regulatory disclosures.

¹ The Underlying Funds may gain indirect exposure for non-investment purposes (through, including but not limited to, derivatives and shares or units of collective investment schedules) to issuers with exposures that are inconsistent with the EU PAB Exclusions described. Circumstances in which such indirect exposure may arise include, but are not limited to, where a counterparty to a foreign direct investment ("**FDI**") in which the Underlying Funds invest posts collateral which is inconsistent with the Underlying Funds' ESG criteria or where a collective investment scheme ("**CIS**") in which the Underlying Funds invest does not apply any or the same ESG criteria as the Underlying Funds and so provide exposure to securities which are inconsistent with Underlying Funds' ESG criteria.

In addition to the changes related to the implementation of the ESMA Guidelines that will be covered in the first section of this letter, other changes to be implemented irrespective of the ESMA Guidelines will be addressed in the second section.

1. ESG Prospectus Changes

Changes to the Prospectus related to the ESMA Guidelines

This sub-section relates only to the changes to the Prospectus that are triggered by the implementation of the ESMA Guidelines.

From the Effective Date, the investment strategy of BlackRock Global Funds - Sustainable Energy Fund will introduce or amend certain of their characteristics, seeking to ensure that the Underlying Fund comply with the applicable regulatory framework following the entry into application of the ESMA Guidelines.

Apart from the ESMA Guidelines-related changes described in this section and any other changes mentioned in this letter, the ESG characteristics and commitments of BlackRock Global Funds - Sustainable Energy Fund remain unchanged.

The table below sets out the changes made to BlackRock Global Funds - Sustainable Energy Fund for implementing the ESMA Guidelines, irrespective of their investment strategies.

Underlying Fund	Commitments from the Effective Date
BlackRock Global Funds - Sustainable Energy Fund	The investment objectives and policies of the Underlying Fund will be amended to provide that the Underlying Fund will apply the PAB Exclusions, pursuant to the implementation of the ESMA Guidelines recommendations. The Underlying Fund will continue to have a sustainable objective within the meaning of Article 9
	under the SFDR and classified as ESG fund in Hong Kong pursuant to the SFC Circular. Updated applicable PCDs will be made available under Appendix H of the Prospectus in compliance with applicable regulatory requirements in due course.

Fee Impact of the ESG Changes

As confirmed by BlackRock, there will be no change to the fees and expenses borne by BlackRock Global Funds - Sustainable Energy Fund and/or its investors as a result of the proposed changes.

2. Other Changes to the Prospectus

In addition to the ESG Prospectus Changes described above, the investors are informed of the additional changes to the Underlying Funds that are not related to ESG or the ESMA Guidelines as addressed in this second section.

Change to the Management section

The section "Management" will be amended to reflect the current composition of the board of directors of the management company of BlackRock following Mr. Tarek Mahmoud's resignation effective as from October 1, 2024.

Changes to the Important Notice section

The section "Important Notice" will be amended to reflect that pursuant to the entry into force of CSSF Circular 24/856, rights of an investor that invests into BlackRock through an intermediary to be compensated in case of net asset value calculation errors, noncompliance with investment rules and/or other errors at the level of the Underlying Fund may be affected.

Changes to the French SRI Label section

The section "French SRI Label" will be amended to remove references to BlackRock Global Funds - Sustainable Energy Fund, as this Underlying Fund will no longer have a SRI label anymore.

The section "French SRI Label" has been further amended and clarified, in particular considering the entry into force of the new French SRI Label framework (V3) on March 1, 2024, with a transition period ending on January 1, 2025. This framework sets new targets for the Underlying Funds that include companies involved in high-impact climate sectors based on a selection of environmental and social key issues. Each corporate issuer will be evaluated based on the exclusions of corporate and sovereign issuers as per the list of exclusions set out in the Appendix 7 of the SRI label standard.

The SRI label will maintain its generalist nature, with enhanced selectivity on other environmental, social and governance criteria.

Changes to the Investment Stewardship section

The section "Investment Stewardship" has been updated in light of BlackRock's new engagement priorities summarising BlackRock's constructive and long-term approach with companies and reflecting the investment horizons of the investors. These engagement priorities reflect the five themes on which BlackRock most frequently engage companies being the board quality and effectiveness, the strategy, purpose and financial resilience, the incentives aligned with financial value creation, the climate and natural capital and the companies' impacts on people.

You may find a complete summary of such aspects in BlackRock's updated investment stewardship following this link: https://www.blackrock.com/corporate/literature/fact-sheet/blk-responsible-investment-engprinciples-global.pdf.¹

3. Impact of the Changes

As confirmed by BlackRock, save as otherwise mentioned above, there will be no material change to the risk and return profile and the features of the Underlying Funds and no change to the operation and/or manner in which the Underlying Funds are being managed. The changes will not materially prejudice the rights or interests of the investors of the Underlying Funds and there will be no impacts on the existing investors of the Underlying Funds.

4. Costs

As confirmed by BlackRock, the amendments described in this letter will not result in any change to the fees and expenses borne by the Underlying Funds and/or their respective investors. Except for the costs incurred in trading of securities as part of the repositioning and realignment of the portfolios of the Underlying Funds (where applicable) the associated fees and expenses (e.g., mailing costs) will be paid by the management company of BlackRock out of the Annual Service Charge charged to the Funds.

5. General Information

Updated versions of the Prospectus, Information for Residents of Hong Kong and KFS of the Underlying Funds will be available to download from the following website: https://www.blackrock.com/hk¹.

此外,任何使用ESG或可持續性相關詞彙的基金都將須確保其至少80%的投資符合基金的監管披露中訂明的環境或社會目標或可持續投資目標。
