**What is happening?**

We have been notified by the board of directors of MSIF (the “Board”) that given the evolving nature of ESG/sustainability methodologies and data availability, the Board has decided to update the universe of securities which can be considered as sustainable investments for the Underlying Fund. The Board has further decided to proceed with certain stylistic changes to the Sustainability Annexes dedicated to the Underlying Fund, for simplification and / or clarification purposes. These changes became effective on January 7, 2026.

More detailed information about the most relevant change appears below.

As confirmed by the Board, the investment policy and the risk profile of the Underlying Fund will not be impacted as a result of the changes described herein.

## Changes

- The sustainable investments of the Underlying Fund may, where relevant, also include securities having an inherent social or environmental purpose which can be clearly established through the analysis of the underlying assets, even when such instruments are not explicitly labelled as “Social”, “Green” or “Sustainability”.

Following the amendments, the SFDR classification of the Underlying Fund will not change.

These amendments are reflected in the Sustainability Annexes dedicated to the Underlying Fund, included in the Prospectus, where appropriate.

## **What does this mean to you?**

If you wish to continue to invest in the Investment Choice after considering the changes outlined above, you will not need to take any action. However, if you do not wish to maintain your investment in the Investment Choice, you may switch your existing holdings or redirect your future contribution allocations to alternative investment choice(s) by submitting an instruction to us, free of charge.

We recommend that you contact your licensed insurance intermediary in the first instance, who will be able to advise you of the alternative investment choice(s). For information on the fees and charges and the respective risk factors of our range of investment choices, please refer to the product brochure of the respective Schemes and the offering documents of the underlying funds made available by us upon request.
