What is happening to the Underlying Funds?

We have been notified by First Sentier of various changes and updates to First Sentier and the Underlying Funds. Unless otherwise specified, these changes are expected to take effect on or around November 24, 2026 (the "**Effective Date**"). These updates are summarised below.

A. Update to ESG disclosures applicable to Underlying Funds

The ESG strategy disclosed in the Sustainable Finance Disclosure Regulation ("**SFDR**") annex in respect of the Underlying Funds currently managed by FSSA Investment Managers ("**FSSA**") (which will be changed to First State Investments per section B below) will be updated to clarify more clearly the ESG practices adopted by FSSA in the ESG screening process applied to investments. This will include the addition of vapes and e-cigarettes to the existing tobacco exclusion policy and clarifications to the current controversial weapons, coal exposure and pornography exclusions.

As confirmed by First Sentier, these changes will not result in any change in the way the Underlying Funds are managed and are for clarification purposes only.

The changes to the SFDR annex which will apply to all the Underlying Funds are set out in Appendix 1 of this document.

B. Rebranding of FSSA to First State Investments

FSSA, an affiliate Investment team of First Sentier Group (group of companies of which First Sentier Investors (Ireland) Limited is part), will be rebranded as First State Investments ("**First State**"), returning to its heritage name.

For nearly two decades, the investment team now known as FSSA was recognised as First State in markets around the world. The First State name has long been associated with investing in high-quality companies across Asia and emerging markets. That name continues to resonate strongly with investors, intermediaries and partners, particularly in heritage markets such as the UK and Asia.

Recent changes have created the opportunity to return to a name that many people still associate with FSSA's business, and in many cases continue to call the Investment team today. Reverting to First State Investments allows the Investment team to reconnect the business with its investment roots, build on a name that remains well respected and recognised, and provide a stronger platform to restore and strengthen market positioning.

As confirmed by First Sentier, while the name and visual identity will change, there will be no change to the way the business is managed, the investment philosophy, or its commitment to investors. As equity partners in the business, and with the full backing of First Sentier Group, the investment team are more committed than ever to helping investors access the opportunities presented by the growth of Asia and emerging markets. As a result, a full list of the Underlying Fund name changes are set out below:

Existing Underlying Fund Name	**Proposed Underlying Fund name from the Effective Date**

C. Update to Prospectus disclosures on the EU Benchmark Regulation

Following a change in regulation, First Sentier will update the disclosure in the Prospectus to advise that unless otherwise indicated in the relevant Supplement of the Underlying Funds, every benchmark used by the Underlying Funds will be either provided by an administrator located in the EU and authorised or registered under the EU Benchmark Regulation, provided by an administrator located outside the EU who meets the

equivalent or recognition requirements of the EU Benchmark Regulation, or endorsed by the EU Benchmark Regulation process.

D. Other miscellaneous, enhancement, clarificatory, administrative, general regulatory and cosmetic updates to the Prospectus.

As confirmed by First Sentier, in respect of the above changes:

- save as otherwise disclosed above, there will be no other change in the operation and/or manner in which the Underlying Funds are being managed;
- save as otherwise disclosed above, there are no other effects on existing investors in the Underlying Funds as a result of the changes; there will be no change to the features and the risk applicable to the Underlying Funds; and there will be no change to the level of fees or costs in managing the Underlying Funds; and
- the changes will not result in any impact that might materially prejudice the rights or interests of existing investors in the Underlying Funds.

First Sentier will issue an updated Prospectus (including Supplements of the Underlying Funds) to reflect the changes described in this document.

Additionally, in Hong Kong, the Hong Kong Supplement and the product key facts statements ("**KFS**") of the Underlying Funds authorised by the SFC will be updated accordingly.

The updated Prospectus, Supplements, any impacted local prospectus supplement (including the Hong Kong Supplement and the KFS of the Underlying Funds authorised by the SFC) will be available on or around the Effective Date and on following website: www.firstsentierinvestors.com[1].

Appendix 1 – Updated ESG disclosures applicable to the Underlying Funds

The relevant sections of the "**SFDR Annex**" of the Underlying Funds shall be updated as follows. New text is shown ***bold italics***, and text which is being removed is struck through.

What environmental and/or social characteristics are promoted by this financial product?

The environmental characteristic promoted by the Fund is climate change mitigation, through exclusion of companies with material generating activities linked to thermal coal mining ~~and processing~~.

The social characteristics promoted by the Fund are the enhancement of better health and human rights, through the exclusions of certain companies with activities linked to tobacco, controversial weapons and gambling.

What are the binding elements of the investment strategy used to select the investments to attain each of the environmental or social characteristics promoted by this financial product?

Coal exposure – the Fund will not invest in companies with, at time of initial purchase, a materially large exposure to thermal coal mining ~~and processing~~ where it is a key part of the business. Materiality is defined as companies with revenues in excess of 10% from thermal coal. Initial investments will not be made in companies with revenues in excess of 10% from thermal coal. If subsequent reassessments of an existing investment identify thermal coal revenues in excess of 10% on a retrospective, rolling 3-year average, there will be further engagement with such companies, however the Fund is not obliged to sell the relevant stock and may purchase further stock (e.g., in order to maintain a consistent level of exposure to it in the portfolio). Coal exposure is checked annually by the Investment Manager.

Gambling – the Fund will not invest in companies whose primary business, at time of initial purchase, is gambling. Initial investments will not be made in companies with revenues in excess of 10% from gambling. This applies to companies that own or operate gambling facilities and those that produce gambling products or provide support services to the gambling industry. If subsequent reassessments of an existing investment identify gambling exposure in excess of 10% annually on direct revenues, there will be further engagement with such companies however the Fund is not obliged to sell the relevant stock and may purchase further stock (e.g., in order to maintain a consistent level of exposure to it in the portfolio). Gambling exposure is checked annually by the Investment Manager.

Pornography – the Fund will not invest in companies involved, at time of initial purchase, in the production or ~~and~~ distribution of pornography or adult entertainment, with an effective 0% revenue threshold. This applies to companies that are involved in the production or distribution or own any product categories of pornographic or adult entertainment content. Existing companies held by the Fund are screened initially and exposure is checked annually thereafter by the Investment Manager. Should a subsequent analysis by the Investment Manager identify a revenue exposure to the contrary then an orderly sale of such investments will be initiated with a reasonable timeframe.

Tobacco – the Fund will not invest in companies involved in, at time of purchase, the production of traditional cigarettes and other tobacco products (including cigars and chewing tobacco***, vape products and e-cigarettes***), with an effective 0% revenue from production threshold. This applies to companies that own more than a 50% interest in entities that derive any revenue directly from the manufacture of tobacco products. Companies are screened initially and monitored throughout the year by the Investment Manager. Should a subsequent analysis by the Investment Manager identify a revenue exposure to the contrary then an orderly sale of such investments will be initiated with a reasonable timeframe.

Controversial weapons – the Fund will not invest in companies that are involved, at time of initial purchase, in the production or development of cluster munitions, anti-personnel mines, small arms, biological and chemical weapons, depleted uranium, white phosphorus munitions and nuclear weapons ~~produced in support of the nuclear weapons programs of non-nuclear weapon State Parties and non-signatories to the Treaty on the Non-Proliferation of Nuclear Weapons~~. This applies to all companies that manufacture controversial weapons and entities that own more than 50% of controversial weapons manufacturers, with an effective 0% revenue threshold. Companies are screened initially and monitored throughout the year by the Investment Manager. Should a subsequent analysis by the Investment Manager identify a revenue exposure to the contrary then an orderly sale of such investments will be initiated with a reasonable timeframe.
