

Zurich Cyber Security App activation guide

Get started: Activating Zurich Cyber Security App

Follow these simple steps to activate your Zurich Cyber Security App:

1. Register Now

Download the Zurich Cyber Security HK from your device's application store. Click on the "Register" button to create your account.

2. Fill in Your Information

Enter your personal information, including the license key you received earlier.

3. Create a Password

Choose a strong password for your account.

4. Verify Your Email

Check your email for a verification message.

5. Getting Setup

Follow the on-screen prompts to complete the setup process and start using your Zurich Cyber Security App.

Add devices for friends and family

Follow these simple steps to add devices for your friends and family in your Zurich Cyber Security App:

1. Click the "Add a Device" Box

Open the app and find the "Add a Device" option. Click on the box to start the process.

2. Enter Details for Sharing

Enter the first name and email address* of the person you want to share the app with.

3. Check the Mailbox

An invitation code will be sent to the provided email address.

4. Register Now

Ask your invitee to download the Zurich Cyber Security HK from their device's store. Click on the "Register" button to create their account.

5. Register with the Invitation Code

Please follow the guide "Get Started: Activating Zurich Cyber Security APP" to activate. Please enter the invitation code instead of the license key.

*Each email address can only be register for one device at a time
