NOTES TO THE UNAUDITED CONDENSED INTERIM FINANCIAL STATEMENTS For the Financial Period Ended 30 June 2023

1. BASIS OF PREPARATION

The condensed interim financial statements of the Company are unaudited and have been prepared in accordance with the Malaysian Financial Reporting Standard ("MFRS") 134: Interim Financial Reporting, International Accounting Standard ("IAS") 34: Interim Financial Reporting, Guidelines / Circulars issued by Bank Negara Malaysia ("BNM") and should be read in conjunction with the Company's audited financial statements for the financial year ended 31 December 2022, which were prepared in accordance with the Malaysian Financial Reporting Standards ("MFRS"), International Financial Reporting Standards ("IFRS"), except as disclose in note 2 to the interim financial statements.

The explanatory notes attached to the unaudited condensed interim financial statements provide an explanation of events and transactions that are significant to gain an understanding of the changes in the financial position and performance of the Company since the financial year ended 31 December 2022.

The accounting policies and presentation adopted by the Company for the unaudited condensed interim financial statements are consistent with those adopted in the Company's audited financial statements for the financial year ended 31 December 2022, except for the financial results relating to the adoption of MFRS 17 Insurance contracts and MFRS 9 Financial instruments. The comparative information and disclosure have been prepared in accordance with MFRSs and restated where relevant to reflect the initial adoption of the new accounting standards, MFRS 17 and MFRS 9.

MFRSs, Interpretations and amendments effective for annual periods beginning on or after 1 January 2023

The accounting policies adopted by the Company for the unaudited condensed interim financial statements are consistent with those adopted in the Company's audited financial statements for the financial year ended 31 December 2022, except for the adoption of the following MFRS and amendments to MFRS:

Description	Effective Date
MFRS 17, Insurance Contracts Amendments to MFRS 17, Insurance Contracts - Initial Application of MFRS	1 January 2023 1 January 2023
17 and MFRS 9 – Comparative Information Amendments to MFRS 101, Presentation of Financial Statements - Disclosure	•
of Accounting Policies	1 January 2023
Amendments to MFRS 108, Accounting Policies, Changes in Accounting Estimates and Errors - Definition of Accounting Estimates	1 January 2023
Amendments to MFRS 112, Income Taxes - Deferred Tax related to Assets and Liabilities arising from a Single Transaction	1 January 2023

The initial application of the abovementioned accounting standards and amendments issued by Malaysian Accounting Standards Board ("MASB") did not have any material financial impact to the current period and prior period financial statements of the Company upon their first adoption except as mentioned in Note 2 "changes in accounting policies".

2. CHANGE IN ACCOUNTING POLICIES

(i) MFRS 17 Insurance Contracts

MFRS 17 replaces MFRS 4 Insurance Contracts for annual periods beginning on or after 1 January 2023. This standard has brought significant changes to the accounting for insurance and reinsurance contracts. As a result, the Company has restated certain comparative financial information and presented a third statement of financial position as at 1 January 2022.

NOTES TO THE UNAUDITED CONDENSED INTERIM FINANCIAL STATEMENTS For the Financial Period Ended 30 June 2023

2. CHANGE IN ACCOUNTING POLICIES (cont'd)

(i) MFRS 17 Insurance Contracts (cont'd.)

Changes to classification and measurement

The adoption of MFRS 17 did not change the classification of the Company's insurance contracts. The Company was previously permitted under MFRS 4 to continue accounting using its previous accounting policies. However, MFRS 17 establishes specific principles for the recognition and measurement of insurance contracts issued and reinsurance contracts held by the Company.

The key principles of MFRS 17 are that the Company:

- Identifies insurance contracts as those under which the Company accepts significant insurance risk from another party (the contract holders) by agreeing to compensate the policyholder if a specified uncertain future event (the covered event) adversely affects the policyholder.
- Separates specified embedded derivatives, distinct investment components and distinct non-insurance goods or services from insurance contracts and accounts for them in accordance with other standards.
- Divides the insurance and reinsurance contracts into groups it will recognise and measure.
- Recognises and measures groups of insurance contracts at:
 - A risk-adjusted present value of the future cash flows (the fulfilment cash flows) that incorporates all
 available information about the fulfilment cash flows in a way that is consistent with observable market
 information.

Plus

- An amount representing the unearned profit in the group of contracts (the contractual service margin or CSM).
- Recognises profit from a group of Insurance contracts over the period the Company provides insurance
 coverage, as the Company is released from risk. If a group of contracts is expected to be onerous (i.e., lossmaking) over the remaining coverage period, the Company recognises the loss immediately.
- Recognises an asset for insurance acquisition cash flows in respect of acquisition cash flows paid, or incurred, before the related group of insurance contracts is recognised. Such an asset is derecognised when the insurance acquisition cash flows are included in the measurement of the related group of insurance contracts.

Level of aggregation

Under MFRS 17, insurance and reinsurance contracts are aggregated into groups for measurement purpose. Groups of contracts are determined by first identifying portfolios of contracts, each comprising contracts subject to similar risks and managed together. Each portfolio is divided into annual cohorts (i.e. by years of issuance and inception) and groups of contracts.

Changes to presentation and disclosure

For presentation in the statement of financial position, the Company aggregates insurance and reinsurance contracts issued and reinsurance contracts held, respectively and presents separately:

- · Portfolios of insurance contracts issued that are assets
- · Portfolios of reinsurance contracts held that are assets
- · Portfolios of insurance contracts issued that are liabilities
- · Portfolios of reinsurance contracts held that are liabilities

NOTES TO THE UNAUDITED CONDENSED INTERIM FINANCIAL STATEMENTS For the Financial Period Ended 30 June 2023

2. CHANGE IN ACCOUNTING POLICIES (cont'd)

(i) MFRS 17 Insurance Contracts (cont'd.)

Changes to presentation and disclosure (cont'd.)

The groups referred to above are those established at initial recognition in accordance with the MFRS 17 requirements.

The line item descriptions in the statement of profit or loss and other comprehensive income have been changed significantly compared with last year. Previously the Company reported the following main line items: premium income, claims paid, and change in insurance contract liabilities. MFRS 17 requires separate presentation of:

- · Insurance revenue
- Insurance service expense
- Insurance finance income or expense

The Company provides disaggregated qualitative and quantitative information in the notes to the financial statements about:

- The amounts recognised in its financial statements from insurance contracts
- Significant judgements, and changes in those judgements, made when applying the standard.

Transition

The Company determined the transition approach at groups of insurance contracts levels, depending on availability of reasonable and supportable historical information. The Company will apply a retrospective transition approach and expects that most groups of insurance contracts will follow either a full retrospective approach or fair value approach.

On transition date, 1 January 2022, the Company:

- Has identified, recognised and measured each group of insurance contracts as if MFRS 17 had always applied.
- · Derecognised any existing balances that would not exist had MFRS 17 always applied.
- · Recognised any resulting net difference in equity.

The Company has assessed that a significant portion of its life insurance liabilities (including unit-linked insurance liabilities, annuity contracts and certain life insurance contracts with policyholder participation qualify as direct participating contracts under MFRS 17 and eligible for the application of Variable Fee Approach ("VFA"). The optional exemption from the annual cohort requirement for such contracts is not applicable to the Company. For non-participating contracts such as term life plans, medical plans and in-force reinsurance contracts held, the General Measurement Model ("GMM") or also known as Building Block Approach ("BBA") will be applied.

The Company applies full retrospective approach ("FRA") for the measurement of the Contractual Service Margin ("CSM") for all the groups of contracts at transition on 1 January 2022. The CSM is based on initial assumptions when groups of contracts were incepted and rolled forward to the date of transition as if MFRS 17 had always been applied. The fair value approach is used to estimate the initial CSM for the groups of contracts when the Company was acquired by Zurich Insurance Company Limited ("ZICL") on 1 October 2011. In the subsequent measurement, the groups of contracts accepted prior to the acquisition date and contracts written after the acquisition date was measured using the FRA.

The Company will be applying the GMM model for all reinsurance contracts held.

The Company apply a bottom-up discount rate approach, i.e. risk-free yield curve plus an illiquidity premium where applicable. MFRS 17 requires using a market consistent yield curve factoring the illiquidity embedded in insurance liabilities. The methodology consists in using a Basic Risk-Free Rate (RFR), based on government bonds and adding on an illiquidity premium (IP) allowance to reflect the remuneration of illiquidity observed.

NOTES TO THE UNAUDITED CONDENSED INTERIM FINANCIAL STATEMENTS For the Financial Period Ended 30 June 2023

The following table show the nature and amount of the measurement adjustments made to the opening balance sheet:

	Description
Remapping / Removal of MFRS 4	The items include:
	 Policy loans (which were previously reported into investments under loans and receivables) is now part of fulfilment cash flows and netted off against insurance contract liabilities.
	 Insurance receivables, insurance payables, reinsurance contract assets, insurance contract liabilities and other payables were removed on transition and are net off within MFRS 17 equivalents.

NOTES TO THE UNAUDITED CONDENSED INTERIM FINANCIAL STATEMENTS For the Financial Period Ended 30 June 2023

2. CHANGE IN ACCOUNTING POLICIES (cont'd)

(i) MFRS 17 Insurance Contracts (cont'd.)

Financial Impact (cont'd)

The following table show the nature and amount of the measurement adjustments made to the opening balance sheet: (cont'd)

	Description
Remeasurement effects of MFRS 17	The items includes:
	Transition Contractual service margin ('CSM')
	CSM is a new liability component that represents the future unearned profits associated with insurance contracts written which will be released to the profit and loss over the insurance contract coverage period.
	Fulfilment cash flows ('FCF')
	The measurement of insurance contract assets/liabilities under MFRS 17 is based on groups of insurance contracts and includes a liability for fulfilling the contract obligations associated with the insurance contract, such as premiums, expenses, and insurance benefits and claims. These are recorded within the FCF component of the insurance contract liabilities, together with the risk adjustment.
	Tax effect New deferred tax were reported, where appropriate, on temporary differences between the new MFRS 17 accounting balances and associated tax bases.

(ii) MFRS 9 Financial Instruments

MFRS 9 'Financial Instruments' replaces MFRS 139 'Financial Instruments: Recognition and Measurement' on the classification and measurement of financial assets and financial liabilities and on hedge accounting, effective for annual periods beginning on or after 1 January 2018. However, as the Company qualifies for temporary exemption under the guidance on Amendments to MFRS 4 - Applying MFRS 9, Financial Instruments with MFRS 4, Insurance Contracts from applying MFRS 9 and has deferred and adopted MFRS 9 together with MFRS 17, Insurance Contracts for the financial year beginning on or after 1 January 2023.

The nature of the changes in accounting policies can be summarised as follows:

To determine their classification and measurement category, MFRS 9 requires all financial assets to be assessed based on a combination of the entity's business model for managing the assets and the instruments' contractual cash flow characteristics.

The MFRS 139 measurement categories for financial assets fair value through profit or loss (FVPL), available for sale (AFS), held-to-maturity (HTM) and loans and receivables (L&R) at amortised cost have been replaced by:

- · Financial assets at fair value through profit or loss including equity instruments and derivatives
- Debt instruments at fair value through other comprehensive income (FVOCI), with gains or losses recycled to profit or loss on derecognition
- Equity instruments at fair value through other comprehensive income, with no recycling of gains or losses to profit or loss on derecognition
- Debt instruments at amortised cost

NOTES TO THE UNAUDITED CONDENSED INTERIM FINANCIAL STATEMENTS For the Financial Period Ended 30 June 2023

2. CHANGE IN ACCOUNTING POLICIES (cont'd)

(ii MFRS 9 Financial Instruments(cont'd.)

The Company has classified and measured all its quoted and unquoted equity instruments, as well as unit trusts at FVPL. Its holding in debt instruments has been classified as FVOCI.

There will be no significant changes to the Company's accounting for financial liabilities as it largely retains the MFRS 139 requirements.

Changes to the impairment calculation

The adoption of MFRS 9 has fundamentally changed the Company's accounting for impairment losses for financial assets held at FVOCI or amortised cost by replacing MFRS 139's incurred loss approach with a forward-looking expected credit loss (ECL) approach.

MFRS 9 requires the Company to record an allowance for ECLs for all debt instruments not held at FVPL.

For debt instruments, the ECL is based on the portion of lifetime ECLs (LTECL) that would result from default events on a financial instrument that are possible within 12 months after the reporting date. However, when there has been a significant increase in credit risk since origination or purchase of the assets, the allowance is based on the full lifetime ECL.

The Company's debt instruments at FVOCI and amortised cost comprise solely of corporate debt securities that are graded in the top investment category by MARC and RAM therefore, are considered to be low credit risk investments. It is the Company's policy to measure such instruments on a 12-month ECL (12mECL) basis. The Company does, however, consider that there has been a significant increase in credit risk for a previously assessed low credit risk investment when any contractual payments on these instruments are more than 30 days past due. Where the credit risk of any bond deteriorates, the Company will sell the bond and purchase bonds meeting the required investment grade.

The Company considers an instrument to be in default when contractual payments are 90 days past due. However, in certain cases, the Company may also consider an instrument to be in default when internal or external information indicates that the Company is unlikely to receive the outstanding contractual amounts in full.

The adoption of the ECL requirements of MFRS 9 resulted in increases in impairment allowances related to the Company's debt instruments. The increase in allowance was adjusted to retained earnings.

Disclosure

The new standard also introduces expanded disclosure requirements and changes in presentation. These are expected to change the nature and extend of the Company's disclosure about its financial instruments particularly in the year of the adoption of the new standard.

The Company has applied the new rules retrospectively from 1 January 2023, without restating prior periods' information and recognising any difference between the previous carrying amount and the carrying amount at the beginning of the annual reporting period at the date of initial application in its' opening retained earnings.

The following section sets out the impact of adopting MFRS 9 on the statement of financial position, including the effect of replacing MFRS 139's incurred credit loss calculations with MFRS 9's ECLs.

3. AUDITOR'S REPORT ON PRECEDING ANNUAL FINANCIAL STATEMENTS

The auditor's report on the audited financial statements for the financial year ended 31 December 2022 was not qualified.

4. SEASONAL OR CYCLICAL FACTORS

The Company's business operations are not significantly affected by any unusual seasonal or cyclical factors.

5. UNUSUAL ITEMS

There were no other unusual items affecting assets, liabilities, equity, net income or cash flows for the current financial period under review.

6. CHANGE IN ACCOUNTING ESTIMATES

There was no material changes in basis used for accounting estimates for the current financial period to date.

7. DEBT AND EQUITY SECURITIES

There were no issuances or repayments of debt and equity securities for the current financial period under review.

8. DIVIDEND PAYMENT

There was no dividend paid during the current financial period under review.

9. SUBSEQUENT EVENT

There are no material subsequent events from the end of the current financial period under review to the date of these unaudited condensed interim financial statements.

10. CHANGES IN COMPOSITION OF THE COMPANY

There were no changes in composition of the Company during the current financial period under review.

11. CONTINGENT LIABILITIES

There are no contingent liabilities as at the date of this report since the date of the last annual statement of financial position.

Financial assets at fair value through profit or loss	178,149	165,692	165,692
Financial assets at amortised cost	1,679	1,725	1,725
	4,888,566	4,537,952	4,537,952

13. FAIR VALUE INFORMATION

The carrying amounts of cash and cash equivalents, short-term receivables and payables reasonably approximate their fair value due to relative short-term nature of these financial instruments.

Policy on transfer between levels

The fair value of an asset to be transferred between levels is determined as of the date of the event or change in circumstances that caused the transfer.

Level 1 fair value

Level 1 fair value is derived from quoted price (unadjusted) in active markets for identical financial assets or liabilities that the entity can access at the measurement date.

NOTES TO THE UNAUDITED CONDENSED INTERIM FINANCIAL STATEMENTS For the Financial Period Ended 30 June 2023

13. FAIR VALUE INFORMATION (CONT'D.)

Level 2 fair value

Level 2 fair value is estimated using inputs other than quoted prices included within Level 1 that are observable for the financial assets or liabilities, either directly or indirectly. These include quoted prices for similar assets and liabilities in active markets, quoted prices for identical or similar assets and liabilities in inactive markets, inputs that are observable that are not prices (such as interest rates, credit risks, etc) and inputs that are derived from or corroborated by observable market data.

Transfers between Level 1 and Level 2 fair values

There has been no transfer between Level 1 and 2 fair values during the financial year. (2022: no transfer in either directions).

Level 3 fair value

Level 3 fair value, if any, is estimated using unobservable inputs for the financial assets and liabilities. The main asset classes in this category are unquoted equity securities, un-rated securities, investment properties, non-performing loans and debt securities from organisations in default. The fair value measurement objective remains the same, that is, an exit price from the perspective of the Company. Therefore, unobservable inputs reflect the Company's own assumptions about the assumptions that market participants would use in pricing the instrument (including assumptions about risk). These inputs are developed based on the best information available, which might include the Company's own data and judgments. The judgement applied in valuing the non-performing loans is explained in Note 3(ii) to the audited financial statements.

Financial instruments and non-financial assets carried at fair value

The following tables show the Company's financial instruments and non-financial assets which are measured at fair value at the reporting date analysed by the various levels within the fair value hierarchy:

15. CASH FLOWS

	30.06.2023	30.06.2022
	RM'000	RM'000
Cash flow from operating activities		
Net profit for the financial period	44,705	27,276
Adjustments for:		
Depreciation of property, plant and equipment	2,951	2,802
Depreciation of right-of-use assets	4,229	4,153
Amortisation of intangible assets	632	631
Investment income	(149,022)	(141,928)
Realised losses recorded in profit or loss	8,254	11,519
Fair value losses recorded in profit or loss	47,150	207,740
Unrealised foreign exchange gains recorded in profit or loss	(24,902)	(21,871)
Interest expenses on lease liabilities	238	203
Tax expense	14,876	5,360
Operating (loss)/profit before changes in working capital	(50,889)	95,885
Changes in working capital:		
Decrease in financial assets at fair value through profit or loss	28,705	28,277
Increase in available-for-sale financial assets	(99,701)	(52,470)
Decrease in loans and receivables	54	1,555
Decrease/(Increase) in reinsurance assets	40,452	(61,143)
Increase in other receivables	(2,614)	(4,286)
Decrease in insurance contract liabilities	(125,209)	(51,605)
Increase/(decrease) in other liabilities	43,593	(86,558)
Cash used in operating activities	(165,609)	(130,345)

The Company classifies the cash flows from the acquisition and disposal of financial assets as operating cash flows, as the purchases are funded from the cash flows associated with the origination of insurance contracts, net of the cash flows for payments of benefits and claims incurred for insurance contracts, which are also classified under operating activities.

NOTES TO THE UNAUDITED CONDENSED INTERIM FINANCIAL STATEMENTS For the Financial Period Ended 30 June 2023

16. TOTAL CAPITAL AVAILABLE

The regulated capital of the Company as at 30 June 2023 comprised capital available of RM1,869,180,000 (31 December 2022: RM1,791,790,000).

The capital structure of the Company as at 30 June 2023, as prescribed under the RBC Framework, is shown below:

	30.06.2023 RM'000	31.12.2022 RM'000
Tier 1 Capital		
Paid-up share capital	579,000	579,000
Reserves, including retained earnings	1,191,594	1,201,552
	1,770,594	1,780,552
Tier 2 Capital		
Fair value through other comprehensive income ("FVOCI") reserves Less:	107,829	21,469
Deferred tax assets	(9,239)	(10,231)
Total Capital Available	1,869,184	1,791,790

NOTES TO THE UNAUDITED CONDENSED INTERIM FINANCIAL STATEMENTS For the Financial Period Ended 30 June 2023

17. INSURANCE FUNDS

The Company's operating activities are organised by funds and segregated into Life insurance (including Unit-Linked business) and Shareholders' funds in accordance with the FSA.
