Revision of Medical Contribution for <Current Plan Description> (<Current Plan Code>)

Dear Valued Customer,

Thank you for your continued support towards Zurich Takaful Malaysia Berhad ("ZTMB").

We understand that rising medical and healthcare costs in Malaysia are a growing concern. Several significant trends, such as the surge in non-communicable diseases, the expansion of private healthcare services, and the continuous rise in medical inflation, have greatly impacted the medical and health sector.

Despite our persistent efforts to contain costs through various initiatives, these expenses continue to escalate annually. Our initiatives include reviewing and comparing claims across diverse hospitals and conducting in-depth analysis of medical bills to ensure charges are reasonable. At ZTMB, we are committed to providing you with long-term protection. As part of this commitment, we actively manage your contributions to ensure you maintain the medical coverage you need. In light of this, we would like to inform you that we will be revising the contributions for your medical plan.

Following the announcement by Bank Negara Malaysia (BNM) on 20 December 2024, relating to the introduction of interim measures for medical plans, we remain dedicated to assisting our certificate holders in managing the challenges posed by the rising costs associated with high utilisation and medical claims inflation.

To assist you during this transition, we will implement a gradual increase in your contributions over a five-year period. As you are currently aged 60 and above and enrolled in the lowest plan, this increase will be deferred for one year, giving you more time to adjust.

Kindly refer to the table below for the new medical contribution per <Payment Mode Description> which shall vary in accordance with your age.
