**Revision of Tabarru' Charges for <Current Plan Description> (<Current Plan Code>)**

Dear Valued Customer,

Thank you for your continued support of Zurich Takaful Malaysia Berhad ("ZTMB").

We understand that rising medical and healthcare costs in Malaysia are a growing concern. Several significant trends, such as the surge in non-communicable diseases, the expansion of private healthcare services, and the continuous rise in medical inflation, have greatly impacted the medical and health sector.

Despite our persistent efforts to contain costs through various initiatives, these expenses continue to escalate annually. Our initiatives include reviewing and comparing claims across diverse hospitals and conducting in-depth analysis of medical bills to ensure charges are reasonable. At ZTMB, we are committed to providing you with long-term protection. As part of this commitment, we actively manage your Tabarru' charges to ensure you maintain the medical coverage you need. In light of this, we would like to inform you that we will be revising the Tabarru' charges and contributions for your medical plan.

Following the announcement by Bank Negara Malaysia (BNM) on 20 December 2024, relating to the introduction of interim measures for medical plans, we remain dedicated to assisting our certificateholders in managing the challenges posed by the rising costs associated with high utilisation and medical claims inflation.

To assist you during this transition, we will implement a gradual increase in your Tabarru' charges (refer to Appendix 1) over a five-year period. **As you are currently aged 60 and above and enrolled in the lowest plan, this increase will be deferred for one year, giving you more time to adjust.**

With the revision, more units will be taken from your Participant Investment Account to pay for the higher tabarru' charges. If you continue to pay the same contribution RM <Current Regular Contribution> <Payment Mode Description> after this revision, your certificate is expected to sustain up to age Age,<1 day before lapse date DD MMM YYYY>. Below is the suggested contribution for your consideration after spreading out the tabarru' charge increase over a 5-year period.

Current Regular Contribution (RM)	New Regular Contribution over a 5-year Period			
	Year	Percentage Increase (%)	Amount Increase (RM)	Final Amount (RM)
<Current Regular Contribution Amt> <Payment Mode Description>	1	Deferred	Deferred	<Amt1>
	2	<Percent1%>	<Inc1>	<Amt2>
	3	<Percent2%>	<Inc2>	<Amt3>
	4*	<Percent3%>	<Inc3>	<Amt4>
	5*	<Percent4%>	<Inc4>	<Amt5>

\* The increase amount for the fourth year onwards is subject to review and revision depending on the outcome of the various cost containment measures to be implemented

To ensure continuity of your coverage and to improve the sustainability of your investment-linked policy over the next 5 years, a single premium top-up of RM <Proposed Single Premium> is suggested. This Single Premium Top-Up is not related to the insurance charge revision, but it is needed to help keep your policy active and protected throughout the 5-year period.

**You can consult your wealth planner for other alternatives stated below:**

- a) If you wish to make a different amount or method to sustain your certificate.
- b) Review your coverage by reducing your certificate benefits i.e. reduce sum covered and/or remove other rider(s).
