

# Investment bulletin

July 2025

Zurich International Life

This investment bulletin should be read in conjunction with the principal brochure(s) for the relevant product(s).

- For fund performance in fund currency please refer to pages 3 15
- For fund performance in US dollars please refer to pages 16 28 (For the purpose of this bulletin, fund performance exchange rates into US dollars have been sourced by FE)

For details of the available range of funds and their charges, please refer to the 'Investments-your guide' and 'Mirror funds-your guide' booklets, copies of which are available on request.

For full details of the products, please refer to the individual product brochure and individual policy terms and conditions, copies of which are available on request.

Past performance is not a guide to future performance. The value of any investment and the income from it can fall as well as rise as a result of market and currency fluctuations and you may not get back the amount originally invested.

Source: Zurich International Life. Figures based on bid prices on the last day of each month and include the deduction of the standard management charge. For the mirror funds, this also includes the deduction of the additional mirror fund charge of 0.75%. You should note that investing in some of these markets could result in the possibility of large and sudden falls in the price of units. The shortfalls on cancellation or loss on realisation could be considerable. Details of the individual fund performances are available on request. Mirror fund performance may not completely reflect the underlying fund performance due to some management charges incurred. The charges, expenses and taxation of the underlying fund are different and performance may differ. Please refer to the Mirror funds - your guide brochure for details. Details of the risk rating and description and how the risk rating is calculated can also be found in this brochure.

NB Performance data marked with a † is since launch performance.

FE Crown Fund Ratings is a quantitative based ratings system founded on historical performance, volatility and consistency. Funds are ranked against a relative benchmark chosen by FE with the lowest-rated funds carrying a single crown, and the highest awarded five crowns. Funds without a three-year track record are not rated. However, in some cases a rating is applied to funds whose underlying fund carries a three-year track record. FE Crown Ratings are produced solely by FE and its accuracy or completeness cannot be guaranteed.

- <sup>1</sup> For the Eagle funds, the fund price and performance is shown in sterling.
- <sup>2</sup> Please note this fund is only available in the Middle East region. For investments into these funds, the fund manager may at their discretion, make payments based on the value of holdings in the funds to certain financial adviser firms. In the case of these funds, a distributor fee may be paid from the fund charges disclosed to you and rebated to the introducing broker via a commission sharing arrangement. Irrespective of any such arrangement, the fee paid by investors into the relevant share class of the underlying fund is the same and all investors rank equally with each other. Stated fund prices are inclusive of all such fees and relevant fund related charges. If these charges are relevant in your case, your financial adviser should make these clear to you. Applications are subject to compliance with local regulations.
- <sup>3</sup> This fund is a hedged share class which aims to provide investors with a return correlated to the base currency performance of the fund, by reducing the effect of exchange rate fluctuations between the base and hedged currency. It is important to note that the hedge is not perfect it aims to reduce, not eliminate, currency risk.
- <sup>4</sup> The manager of this fund may deduct a performance based fee from this fund. This charge is additional to the total yearly charge shown. For further information please refer to the fund manager's literature.
- <sup>5</sup> The annual management charge (AMC) quoted, contains an additional charge that is deducted by the Management Company to cover the fund's ongoing distributor/ servicing/ maintenance costs. These charges may be listed separately to the AMC in the fund's prospectus but for the purposes of this bulletin are displayed collectively. This is not the funds total expense ratio/ongoing charge figure.
- 6 As the fund employs both long and short strategies, extreme market conditions could theoretically expose the fund to unlimited losses. Such extreme conditions could result in little or no growth and may result in losses to your original investment. Only investors seeking long-term growth over a five to ten year horizon with at least moderate volatility should consider this fund. With every investment, there is a risk to your capital and you may not get back what you originally invested.
- <sup>7</sup> This fund is not available in the Middle East region.
- 8 This underlying fund is created through a daily currency switch into SGD from the USD share class of the same fund. It is therefore exposed, daily, to currency exchange rate fluctuations between SGD and USD and investors should be aware of the presence of this currency exchange risk before investing.
- <sup>9</sup> The ZI HSBC BRIC Equity fund was closed to new business on 01 April 2010. Existing investments in this fund are unaffected.
- <sup>10</sup>The Zurich Allocated Passive Funds are only available for the Futura and Lifelong Products.
- 11 Due to the ongoing conflict between Russia and Ukraine, market trading conditions continue to be impaired. As a result, all trades within the underlying fund and it's daily price calculation are suspended until further notice.
- <sup>12</sup> Following the suspension of trading, the Annual Management Charge has been waived by the Fund Manager.
- 13 Due to the ongoing conflict between Russia and Ukraine, this Fund has been created for the purposes of holding Russian assets and will be liquidated upon the disposal of the Russian assets.

Source: Zurich International Life. Figures based on bid prices on the last day of each month and include the deduction of the standard management charge. For the mirror funds, this also includes the deduction of the additional mirror fund charge of 0.75%. You should note that investing in some of these markets could result in the possibility of large and sudden falls in the price of units. The shortfalls on cancellation or loss on realisation could be considerable. Details of the individual fund performances are available on request. Mirror fund performance may not completely reflect the underlying fund performance due to some management charges incurred. The charges, expenses and taxation of the underlying fund are different and performance may differ. Please refer to the Mirror funds - your guide brochure for details. Details of the risk rating and description and how the risk rating is calculated can also be found in this brochure.

NB Performance data marked with a † is since launch performance.

FE Crown Fund Ratings is a quantitative based ratings system founded on historical performance, volatility and consistency. Funds are ranked against a relative benchmark chosen by FE with the lowest-rated funds carrying a single crown, and the highest awarded five crowns. Funds without a three-year track record are not rated. However, in some cases a rating is applied to funds whose underlying fund carries a three-year track record. FE Crown Ratings are produced solely by FE and its accuracy or completeness cannot be guaranteed.

- <sup>1</sup> For the Eagle funds, the fund price and performance is shown in sterling.
- <sup>2</sup> Please note this fund is only available in the Middle East region. For investments into these funds, the fund manager may at their discretion, make payments based on the value of holdings in the funds to certain financial adviser firms. In the case of these funds, a distributor fee may be paid from the fund charges disclosed to you and rebated to the introducing broker via a commission sharing arrangement. Irrespective of any such arrangement, the fee paid by investors into the relevant share class of the underlying fund is the same and all investors rank equally with each other. Stated fund prices are inclusive of all such fees and relevant fund related charges. If these charges are relevant in your case, your financial adviser should make these clear to you. Applications are subject to compliance with local regulations.
- <sup>3</sup> This fund is a hedged share class which aims to provide investors with a return correlated to the base currency performance of the fund, by reducing the effect of exchange rate fluctuations between the base and hedged currency. It is important to note that the hedge is not perfect it aims to reduce, not eliminate, currency risk.
- <sup>4</sup> The manager of this fund may deduct a performance based fee from this fund. This charge is additional to the total yearly charge shown. For further information please refer to the fund manager's literature.
- <sup>5</sup> The annual management charge (AMC) quoted, contains an additional charge that is deducted by the Management Company to cover the fund's ongoing distributor/ servicing/ maintenance costs. These charges may be listed separately to the AMC in the fund's prospectus but for the purposes of this bulletin are displayed collectively. This is not the funds total expense ratio/ongoing charge figure.
- 6 As the fund employs both long and short strategies, extreme market conditions could theoretically expose the fund to unlimited losses. Such extreme conditions could result in little or no growth and may result in losses to your original investment. Only investors seeking long-term growth over a five to ten year horizon with at least moderate volatility should consider this fund. With every investment, there is a risk to your capital and you may not get back what you originally invested.
- <sup>7</sup> This fund is not available in the Middle East region.
- 8 This underlying fund is created through a daily currency switch into SGD from the USD share class of the same fund. It is therefore exposed, daily, to currency exchange rate fluctuations between SGD and USD and investors should be aware of the presence of this currency exchange risk before investing.
- <sup>9</sup> The ZI HSBC BRIC Equity fund was closed to new business on 01 April 2010. Existing investments in this fund are unaffected.
- <sup>10</sup>The Zurich Allocated Passive Funds are only available for the Futura and Lifelong Products.
- 11 Due to the ongoing conflict between Russia and Ukraine, market trading conditions continue to be impaired. As a result, all trades within the underlying fund and it's daily price calculation are suspended until further notice.
- <sup>12</sup> Following the suspension of trading, the Annual Management Charge has been waived by the Fund Manager.
- 13 Due to the ongoing conflict between Russia and Ukraine, this Fund has been created for the purposes of holding Russian assets and will be liquidated upon the disposal of the Russian assets.

Source: Zurich International Life. Figures based on bid prices on the last day of each month. The sterling, dollar and euro strategies were launched 01/01/2005. Automatic investment strategies are available on policies issued after January 2005. For the purpose of this bulletin, strategy performance exchange rates into US dollars have been sourced by FE.

The performance for the strategies is calculated based on the strategy balance being applied at the start of any given performance period.

#### The Eagle

The Eagle currency is a basket of four globally recognised currencies. Whilst the Eagle is designed to spread currency risk, it cannot remove volatility and the value of the Eagle exchange rate, like any currency, can change daily. Each Eagle is made up of 1 sterling, 2 US dollars, approximately 2.05 euros plus 500 Japanese yen.

The Eagle is currently worth (buying price) as at 30 June 2025

It must be remembered that the value of the Eagle can fluctuate and past performance is not a guide to future performance. The value of any investment and the income from it can fall as a result of market and currency fluctuations and you may not get back the amount originally invested.

#### **Important information**

- a) The figures shown within this document include the deduction of the standard management charge.
- b) The figures have been calculated on bid prices on the last day of each month.
- c) Details of the individual fund performance are available on request.

Zurich International Life is a business name of Zurich International Life Limited.

Zurich International Life Limited is fully authorised under the Isle of Man Insurance Act 2008 and is regulated by the Isle of Man Financial Services Authority which ensures that the company has sound and professional management and provision has been made to protect planholders.

For life assurance companies authorised in the Isle of Man, the Isle of Man's Life Assurance (Compensation of Policyholders) Regulations 1991, ensure that in the event of a life assurance company being unable to meet its liabilities to its planholders, up to 90% of the liability to the protected planholders will be met.

The protection only applies to the solvency of Zurich International Life Limited and does not extend to protecting the value of the assets held within any unit-linked funds linked to your plan. Not for sale to residents or nationals of the United States including any United States federally controlled territory.

Zurich International Life Limited is registered in Bahrain under Commercial Registration No. 17444 and is licensed as an Overseas Insurance Firm - Life Insurance by the Central Bank of Bahrain. Zurich International Life Limited is authorised by the Qatar Financial Centre Regulatory Authority.

Zurich International Life Limited is registered (Registration No. 63) under UAE Federal Law Number 6 of 2007, and its activities in the UAE are governed by such law.

The price of units can fall as well as rise, not only due to movements in the value of investments, but also on account of currency movements where investments are not held in the currency of the fund. You should note that when investing into a mirror fund, the charges, expenses and taxation of the underlying fund are different and performance may differ.

A fund's risk rating number is not static and ratings will be re-assessed every six months and may result in a fund changing its rating number. Please bear this in mind when selecting a fund for investment as its risk levels may alter over time and render it unsuitable for your investment goals. Volatility although a commonly used measure of risk, does not give the full picture of the risks involved and should be used as a guide only. You should always refer to the fund managers published literature (which will be made available by Zurich) to ensure that you fully understand a fund's investment mandate and the full risks involved. We reserve the right to alter the calculation methodology, risk categories and category descriptions in future.

Nothing contained in this report should be construed as guidance to the suitability of the markets mentioned. Anyone considering investing in these markets should seek professional guidance. The information contained in this report is only a summary and may be subject to change without notice. It was obtained from what we believe to be reliable sources. However its accuracy or completeness cannot be guaranteed. Neither Zurich International Life Limited, nor any companies in the Zurich Group nor representatives, can accept responsibility for any errors or omissions.

This bulletin is not intended as an offer to invest.

Calls may be recorded or monitored in order to offer additional security, resolve complaints and for training, administrative and quality purposes.
