What is Critical Illness Protection?

Critical Illness Protection is an insurance policy designed to pay a cash sum if you are diagnosed with a serious illness during the policy term.

The policy provides a choice between two types of cover:

1. Cancer cover

Cancer cover pays a cash sum if you are diagnosed with any type of cancer covered under this policy.

2. Comprehensive critical illness

Comprehensive critical illness pays a cash sum if you are diagnosed with any of the 34 critical illnesses (including cancer) covered under this policy. The list of illnesses covered under this policy can be viewed on pages 5-6.

Both types of cover include the following benefits at no additional cost:

1. Child's cancer cover or child's critical illness cover of USD 15,000 per child, for up to 3 children, based on the option of cover selected on the policy.
2. Funeral coverage of USD 5,000.

What can Critical Illness Protection do for you?

The process of diagnosis, treatment and recovery from a critical illness could take a long time. A serious illness like cancer or heart attack may result in prolonged treatment and recovery period. During your treatment you may be unable to work which may result in reduction or loss of income.

Critical Illness Protection pays you the sum assured if you are diagnosed with a critical illness during the term of the policy. This enables you to pay your living expenses so you can focus on your health and recovery.

You can also use the sum assured to cover any additional medical or treatment related expenses that are not covered by your health insurance and get the specialist treatment you need without being restricted only to hospitals, clinics or countries covered under the health insurance you may have.

The policy continues to provide protection if you move permanently to another country, subject to our business acceptance rules at the time.

What you need to do

- Provide us with all the information we ask for when applying for your policy and answer all the questions on your application fully, truthfully and accurately.
- Tell us about any changes to the information you give us on your application before your policy starts.
- Pay all your premiums outlined in your personalised illustration until the end of your policy term.
- Review your cover regularly with your relevant financial professional to make sure it continues to be right for your needs.
- Ensure you are satisfied that you understand the important aspects of your policy, especially the associated charges.

What you need to be aware of

- We will not pay a claim in the circumstances described in section 'When will the policy not pay out?' of this document.
- Apart from the standard exclusions within the Critical Illness Protection Policy Terms and Conditions, we may apply specific exclusions to your policy when we accept your application. If we do this we will advise you prior to commencing your policy and include these within your policy schedule.
- If you stop paying your premiums, your policy and all policy benefits will end. We won't refund any of your premiums.
- The policy has no cash-in value at any time.
- We may review the price of cancer cover or comprehensive critical illness cover every 5 years and your premium may increase as a result of this review.

Who does the policy cover?

Critical Illness Protection is available on a single or joint ownership basis.

Your policy can be written on one of the following insurance basis:

- Own life – the policy owner is the insured.
- Joint lives, first illness claim – there are two lives insured and both are the policy owners.

The policy owner and life insured must be at least 18 years old when the policy starts.

The maximum age of the life insured at entry or at the time of an increase of the sum assured is 59 years old.

How long is the policy term?

The term of your policy must be chosen between 5 and 35 years and any life insured must be 69 years or younger at the end of the policy. If you pay all your premiums, you will be protected under the policy until the end of your chosen policy term.

Your policy will stop earlier in the event of any claim except for child’s cancer or critical illness cover claim; or funeral coverage in case of a joint life policy; or if you stop paying your premiums.

How much does the policy cost?

Your adviser will provide you with a personalised illustration showing details of the cost of your cover, which depends on:

- your personal circumstances – for example your age, gender, health and whether you smoke
- the type and level of cover you select
- the term of your cover.

You can pay your policy premiums monthly or yearly, subject to the below minimum premiums.

Currency	Monthly	Yearly
USD	25	250
AED	88	875
GBP	13	125
EUR	16	165

Can I make changes to my policy once it has started?

You can increase the level of cover at each policy anniversary, subject to acceptance by us and the maximum cover limits applicable at the time. The premium will increase if you choose to increase the level of cover.

You cannot reduce the level of your cancer or comprehensive critical illness cover once your policy has started, except in the following circumstance. At each fifth policy anniversary, we will review your policy and if the premiums you are paying at that time are not enough to maintain the current level of cover, you can either:

- continue paying the same premiums and reduce the level of cover, or
- increase your premium to maintain the same level of cover.

When will the policy not pay out?

Please refer to the Policy Terms and Conditions for a full list of reasons why a claim may not be paid, there are specific exclusions for the benefits covered. The following is not an exhaustive list of all exclusions but it's important that you should understand that we will not pay a claim if:

- The policy or the benefit lapsed or ended before the claim event took place.
