Effective date of this document: 01 December 2023 onwards

What is this product?

Type of product:

Wealth Accumulation Plan is a unit-linked investment product in the form of a life insurance policy between the policy owner and Zurich International Life Ltd ('Zurich').

Objectives of the product:

Wealth Accumulation Plan is a single premium product designed to allow policy owners to invest in Zurich's range of unit-linked investment options ('funds'). It is designed to allow investors with a broad spectrum of risk appetites to choose from the available funds and select funds that match their risk appetite. The range of funds offered includes equity funds, bond funds, cash funds, funds with a combination of assets as well as other investment options. The return for you, the investor, will depend on the performance of your chosen funds. Information regarding the available funds can be found in the Qatar fund centre at www.zurich.ae.

How is the return determined?

Your policy value is determined by the premiums you pay, the charges we deduct from your policy and the investment performance of your chosen funds. The value of your policy value will rise and fall in line with the value of your chosen funds.

Is income distributed or re-invested?

Income from the funds will either be reinvested in the fund by the fund manager, or distributed as additional units to your policy.

Intended investor:

Wealth Accumulation Plan is intended for investors aged 18 years and older who can invest USD 30,000 or more. You can also pay additional single premiums of at least USD 2,500. It is aimed at people who do not need instant access to their money and are willing to leave their capital invested for at least 5 years.

The intended investor should have the ability to understand and bear the risks associated with this product, including the ability to bear potential investment losses, if any. For more details on this product's risks, please refer to the section below titled 'What are the risks and what could I get in return'.

There can be up to 2 lives insured on the policy.

Insurance benefits:

In the event of the death of the relevant life insured we will pay the following:

- If the youngest life insured was aged 50 or less at the start of the policy and the death is within 15 years of the policy start date, we will pay the higher of the premiums paid (less any withdrawals) or 101% of the surrender value; or
- If the youngest life insured was aged between 51 and 60 at the start of the policy, and the death is within 5 years of the policy start date we will pay the higher of the premiums paid (less any withdrawals), or 101% of the surrender value; or
- 101% of the policy's surrender value in all other cases.

Product term:

The policy has no termination date and will continue until fully surrendered or until the death of the last remaining life insured.

Please note that Wealth Accumulation Plan is not Shari'a compliant.

What are the risks and what could I get in return?

Summary Risk Indicator (SRI)

Risk Indicator	1	2	3	4	5	 This SRI provides you with the average risk rating of all the fund choices available to the product at the time of the assessment. The level of risk and performance your policy will be exposed to will depend on the funds you choose and their exposure to risk.
	←				→	
	Lower Risk				Higher Risk	

SRI assessed on 1 January 2020.

Wealth Accumulation Plan offers a range of funds with risk ratings that range between 1-5. You should ensure that you are aware of the risks relating to funds that you choose under this product, including reading the relevant fund literature. It is **your responsibility** in conjunction with your adviser, to select appropriate underlying funds to match your risk profile. For information about the funds available on Wealth Accumulation Plan please refer to the Qatar fund centre on our website www.zurich.ae.

Wealth Accumulation Plan does not include any capital guarantee or protection from future market performance, so you could lose some or all of your investment. If the underlying investments chosen are held in a currency which is different to that of your policy, currency conversion charges will apply and will be charged to the policy. Changes in exchange rates between currencies could reduce your policy value.

Underlying fund management charges	The fund charges are made by the fund managers and will vary for different types of funds. These are shown on the Qatar fund centre at www.zurich.ae .	You do not pay these directly as the charges will be deducted daily before calculating the daily price of each fund.
Fund Investment Adviser Charge	Up to 1.5% a year of your policy value if you have chosen a fund investment adviser and agreed (between you and the investment adviser firm) to pay for their ongoing investment advice.	Deducted monthly from your policy at the start of each month while there is an agreement in place between you and your fund investment adviser. The charge will be deducted from your chosen investment funds.
Currency switch charge	0.175% of any amount switched between funds of different currencies.	This charge only applies if you switch between funds of different currencies, for example from a USD fund to a GBP fund. The charge is deducted from the 'switch-in' fund, immediately after the switch has been processed.
Currency exchange charge	If we need to convert your premiums or the policy proceeds from the policy currency to another currency, we use an exchange rate which includes a 1% margin in our favour.	This charge will only apply if you pay your premiums to us, or ask us to pay the policy proceeds to you in a currency other than the policy currency.

How long should I hold it and can I take out money early?

You have the right to cancel your policy within 30 days of receipt of your policy documents. You will need to complete and return the cancellation notice provided within your policy pack to us using the contact details in General Information on page 1. You can also cancel your policy before you receive your policy documents by contacting us. Zurich reserves the right to refund your premium less any fall in investment value that may have taken place during the 30 day period.

Wealth Accumulation Plan is a long-term financial commitment and you should aim to hold your policy for at least 5 years. Depending on the fund or combination of funds you select, you may be more exposed to fluctuating capital values in the short term.

Withdrawals:

You can choose to take money out regularly or by taking partial surrenders without charge. Withdrawals are funded by the cancellation of units. You can choose to take regular withdrawals when you set up your policy or at any time during the life of your policy. Frequency: Monthly, quarterly, half-yearly or yearly.

The minimum regular withdrawal amount, minimum partial surrender amount and your minimum surrender value after taking a withdrawal are given below.

Currency	USD	EUR	GBP	AED/QAR	BHD
Minimum regular withdrawal amount	500	400	325	1,850	185
Minimum partial surrender amount	1,000	800	650	3,700	370
Minimum Surrender Value	20,000	16,000	13,000	73,500	7,400

If you choose to fully surrender the policy within 5 years of the payment of a premium, there will be a surrender charge and you may not get all your money back. The size of the surrender charge will reduce over time. Your personalised illustration will provide an indication of the policy surrender values over time.

How can I complain?

If you need to complain about this product, please contact us using the details at the top of this document. You can ask us for a copy of our complaints handling process and this is also detailed on our website.

If you are not satisfied with our response you may also have the right to refer your complaint to:

Qatar regulator:
