Managed Funds risk levels

See what the Managed Funds can do for you

-  Offer you a choice of three currencies and five levels of risk to suit your needs.
-  Give you access to the world's major bond and equity markets.
-  Provide you with an investment manager who has 30 years experience managing these funds.
-  Open Diversified funds with ongoing oversight to manage risk and maximise returns.
-  Help reduce the time you spend actively managing your portfolio, with an annual management charge of only 0.35%.

Over 30 years of doing the basics right

Our experienced fund managers make it easier for you by focusing on four simple principles.

1. Goals

Give your investment a purpose and focus by defining and prioritizing your financial goals.

2. Balance

A diversified, balanced portfolio is a key step towards financial success and minimizing risk.

3. Cost

Choosing a cost-effective investment solution may increase future returns.

4. Discipline

Stay disciplined and align your lifestyle with your financial goals.
