

# Travel Assist App & Portal

24/7 Travel Risk Management Intelligence  
and Traveler Location Management

## MANAGING SAFE TRAVEL

Whether your organization has one or 10,000 travelers abroad, it requires constant monitoring to ensure they're safe and avoid any unnecessary travel disruptors. The Travel Assist app & portal from World Travel Protection deliver the expertise and the technology needed for secure travel management. With customizable AI, human-analyst intelligence, and travel industry insights, we empower organizations to act confidently. Our app and portal provide seamless tracking and communication between travel managers and travelers, with 24/7 access to intelligence and a Call for Assistance button.

## WHAT SETS US APART?

Travel Assist app & portal are backed by our 24/7 monitoring from global Command Centres staffed by experienced travel, medical, and security professionals.

**Designed for HR, security, risk, and travel managers, the portal provides:**

- ✓ Live map view of travelers' locations, travel monitoring, and risk exposure
- ✓ Integrated itineraries from your travel management company (TMC)
- ✓ Real-time incident monitoring, travel tracking, and threat alerts
- ✓ Two-way communication with travelers during crises
- ✓ Comprehensive country intelligence including crime, terrorism, health, and natural hazard data

## COMPLETE CONTROL FOR TRAVEL MANAGERS

Travel Assist enables organizations to monitor global risks, view up-to-date country intelligence, locate their travelers and identify where and if threats may occur. It also provides the mechanisms for travel managers and our 24/7 Command Centres to communicate with travelers and manage a more coordinated response to incidents.

## Complete Travel Risk Management Suite: Travel Assist App & Portal

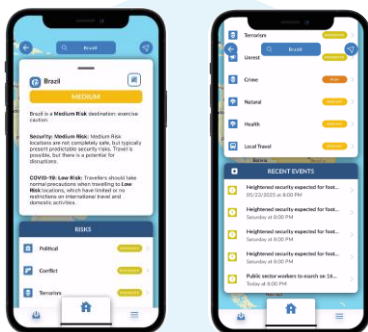

Our integrated technology, backed by 24/7 medical, security, and crisis response experts, enables you to locate, communicate with, and support your people no matter where they are.

The Travel Assist app and portal work together to provide travelers and those who manage their travel with the information and assistance they need at their fingertips.
