

Employers' Liability Assessment

Every workplace presents risks to the health and safety of employees.

Overview

The purpose of this assessment is to consider the risks to employees and others working under your control, arising out of your organisation's work sites.

This service is suitable for:

- Organisations who have employees that are exposed to significant risks which have the potential to cause injury or ill health
- Organisations that would like a better understanding of how they are managing their Employers' Liability exposures

Benefits

The assessment provides insight into the:

- Health and safety liabilities within your business
- Extent to which the organisation is able to demonstrate management of health and safety liabilities
- Robustness of your arrangements for preventing and defending claims

Approach and philosophy

The service will assess the effectiveness of:

- Your health and safety management system, provision of training and standards of documentation
- Management commitment, communication and consultation arrangements
- The identification and control of significant safety risks
- Claims defensibility.

What to expect

The duration of the assessment will depend on the range of your activities, number of locations and activities to be assessed. The assessment will include:

- A scoping/introduction meeting with the risk consultant
- A desktop review of relevant documents
- A discussion about your arrangements for managing employee safety
- A site walk-through
- A closing meeting to discuss our findings
- A report outlining our findings and any recommendations for improvement.

Zurich Risk Advisor

Our free-to-use app allows you to undertake a basic assessment of your existing arrangements for managing employee safety at work as well as providing guidance for improvements, and insight on related topics.
