

Product Liability Awareness Training

Product Liability is the liability of manufacturers, suppliers and retailers for injuries or damage to property caused by their products.

This course will provide an understanding of potential product liability exposures and the key management systems and procedures to control these risks

Learning outcomes

- Increased awareness of the risks from your products and the extent to which these are being managed
- Be able to review the robustness of your arrangements for preventing and defending product liability claims
- Understand the importance of effective supply chain management and oversight in managing product safety and quality

Benefits

- ✓ Increased insight into product liability considerations at all stages from product design and development to post-sales
- ✓ Learnings can be applied in the workplace to review management systems and procedural controls
- ✓ Practical ideas for improving product liability claims defensibility

Training Overview

This half day interactive course can be delivered virtually or in person.
