

# Silica Awareness Training

Silica is a very common and hazardous dust which, if inhaled over the long term, can lead to severe occupational diseases.

This course helps organisations to identify and control this risk.

## Training Overview

This half day course can be delivered virtually or in person.

This course covers:

- An overview of Silica and exposure risk
- Legal duties and management responsibilities
- Assessing and controlling Silica risks

For more details on any of our risk solutions please speak to your usual Zurich contact or email: [zrs.enquiries@uk.zurich.com](mailto:zrs.enquiries@uk.zurich.com)

You can also find details on our website: [zrsmarketplace.zurich.com/uk](https://zrsmarketplace.zurich.com/uk)

## Learning Objectives

- Understand what silica is and where it is found
- Determine how silica exposure occurs and how to prevent this
- Understand how planning or using alternative methods can eliminate silica exposure
- Identify the legal duties for works which produce airborne silica

## Benefits

- ✓ Improves safety awareness and culture regarding management of silica risks
- ✓ Can improve the quality of relevant documentation
- ✓ Improved awareness of claims defensibility in the event of an accident or incident.

## Other training
