

## Demystify AI

## Train AI Users

## Audit AI Usage

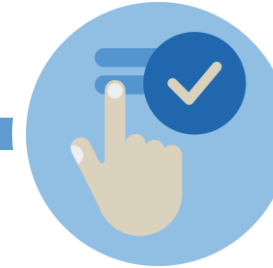

AI Discovery

Understanding AI

Governing AI

AI Maturity

Format: Workshops including presentations and discussion

Engage the business and senior leaders to break down the stereotypes of AI.

Explore the benefits and limitations, recognise the risks and workshop how to embed AI resiliently.

Format: Workshops including presentations and exercises

Educate employees on AI risks, from ethics to confidentiality, and how to mitigate these risks.

Train them to recognise and categorise risk types and test their knowledge through engaging exercises

Format: Interviews, documentation review and final report

Identify AI use across the organisation and map use cases to AI risk categories.

Audit policies and procedures and assess suitability of ethics and risk considerations. Provide tailored recommendations.
