

# Liability Risk Engineering Services

Tailored, flexible solutions that empower organisations to manage liability risk, make informed decisions and optimise risk improvement budgets

Our team of liability consultants provide bespoke solutions across the public and private sectors in relation to:

- Employers' liability
- Public liability
- Product liability
- Asset Liability
- Claims Defensibility

We also work with a range of strategic partners, with preferential rates for Zurich customers.

**Core services** benchmark you against our Global risk standards to assess your safety management systems and systems for defending civil claims.

**Training services** includes a suite of standard courses or bespoke programmes to up skill your employees and fill gaps in your organisation's health and safety knowledge .

**Operational liability services** provide assessment, guidance and training to help you manage your operational liabilities and includes areas such as event management, inspection regimes and allergen awareness.

**Natural environment liability services** provide assessment, guidance and training to help you manage your natural assets such as trees, green and blue spaces.

**Built environment liability services** provide assessment, guidance and training to help you manage your built environment assets such as commercial premises, housing and highways.

**Our strategic partnerships and digital tools** provide practical risk management solutions for improving your risk.

### Zurich Risk Advisor

Our free-to-use app allows you to undertake a basic psychological assessment of your existing arrangements for managing your liability risks at work as well as providing guidance for improvements, and insight on related topics. [Zurich Risk Advisor](#)
