

Risk Management Beyond Risk Transfer: Motor Risk Engineering Proposition

Our Motor Risk Engineering team provides expertise ranging from work related road risk management and driver behaviour through to in-vehicle technology and the development of road safety programmes and driver education.

We support public sector, charities and voluntary organisations, SME, mid-market commercial lines and large international corporate entities.

Our risk management approach uses a process of continuous improvement that starts with us understanding the customers fleets' and identifying the associated risks. of your organisation and employees

Fleet Safety Health Check a free [online tool](#) suitable for small to medium fleets who need to improve their fleet safety and reduce their collision costs.

Motor Fleet Risk Assessment will assist any organisation and offers a collaborative and proactive approach to help customers on their fleet risk management journey.

Grey Fleet Review will identify your 'duty of care' obligations and what you need to do to ensure that both your grey fleet drivers and your organisation are protected.

Bespoke Consultancy such as Transitioning to Sustainable Vehicles, Policy and Documentation Review, Strategy Development, Road Safety Programmes, etc.

Third-Party Offerings we work with carefully selected partners that can provide your organisation with a range of risk reducing technologies at preferential rates.

eDriving help organisations to reduce incidents, collisions, injuries, and total cost of fleet ownership through its innovative digital driver risk management solutions.

DriveTech provide driver risk management and training solutions that include online assessments and e-learning, on road coaching and workshops.

Lightfoot is a driver rewards platform for car/van fleets. By rewarding drivers for better driving it helps to manage risk and lower the overall cost of fleet operations.
