 **ZURICH**<sup>®</sup>  
Resilience Solutions

# Managing risk. Unlocking opportunity.

**Our experts identify and quantify exposure to risk** and drive mitigating actions that help stakeholders reduce losses and unlock hidden opportunity to create a stable and prosperous future.

Through everyday risks impacting infrastructure, people and property, to emerging risks around extreme weather and cybersecurity, Zurich Resilience Solutions is at the forefront of today's world of volatility.

We help you to  
**meet  
tomorrow  
prepared**

# A purpose-driven approach to protection

Stability and resilience breed confidence. But understanding today's complicated world of risk is essential to making sound decisions. At Zurich Resilience Solutions,

we use the power of collaboration, a vast repository of risk data and the deep knowledge gained from **60,000 annual risk assessments**

to help you make the most informed decisions possible – to protect your business, people and community.

Purpose is at the heart of what we do and believe in – and helping organizations build the stability and resilience needed to thrive in today's risk-pervasive world is our unwavering mission.

## A purpose-driven approach to protection

### 1 Trusted Advisors

Deep insights from the brightest minds, backed by AI-powered tools leveraging 75 years of loss data and risk trends, we assess risk exposures and drive mitigating actions to help you build operational resilience.

### 2 Actionable Insights

With deep industry knowledge, our benchmark and impact assessments power bespoke improvement plans so you can make critical financial and operational decisions. Our unrivalled expertise and pragmatic insights help you to go forward with confidence.

### 3 Value Creation

Committed to your long-term success, we partner with you to reduce risk, plan critical investments and protect people to help ensure continuity and long-term resilience – so your organization can thrive.

# Risk Quantification

Data is one of our differentiating assets. We help you to measure and understand the **financial impact of potential loss scenarios**. This is a powerful enabler to planning your investments and reducing risk across your physical and human capital assets. Ask our experts how we can support you with risk quantification capabilities.

# A global leader with local expertise.

An integrated suite of solutions to help you create long-term resilience.

We partner with you through every tier of your organization to connect risks across the entire value chain – from crafting long term portfolio-level strategies with the C-Suite, to providing practical guidance and risk improvement measures at individual sites, our unwavering commitment is to **help you realize resilience.**

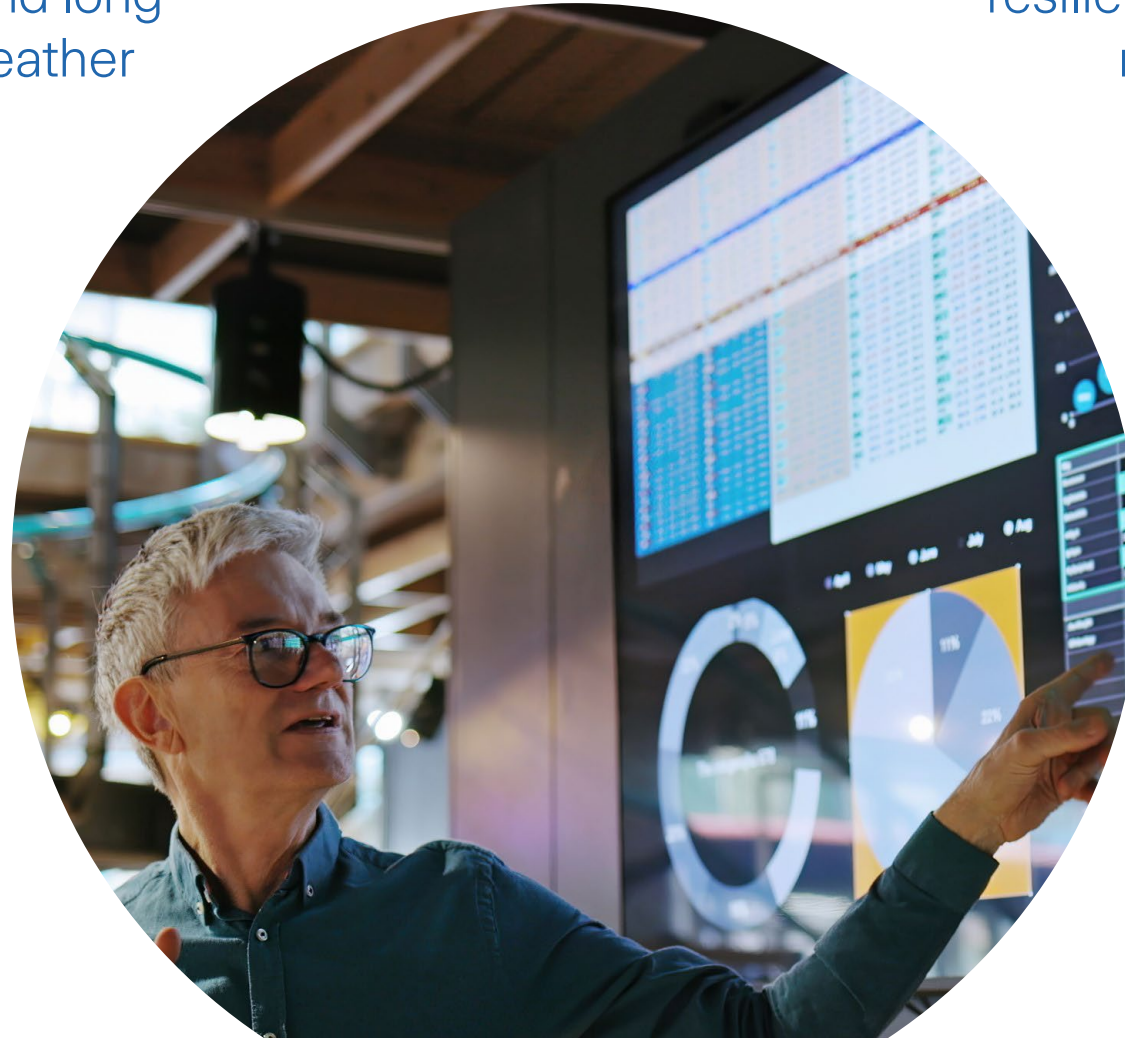

Capabilities to help you create long-term resilience

## 1 Extreme Weather Risk Management

Prepare and protect your business from current and long-term risks of extreme weather climate challenges.

Gaining clarity in a world of weather volatility is essential. With our forward-looking data and financial impact models, we help you to identify and manage weather and climate-related risks. Our approach unlocks key business insights, helping you to identify which of your sites require adaptation, while our climate risk experts provide practical recommendations and ongoing consultation to help manage current and future risks across your entire value chain.

We help bring clarity so you can operate with confidence.

## Cybersecurity Resilience

2

Build strategic and operational resilience to protect your data, reputation & bottom line.

Your digital platforms and data are exposed, while the increasing interconnectedness of operational technology is creating opportunity for highly advanced cyber criminals. Simply put, your organization's most precious assets are at risk. We help you to prepare, monitor and respond so that costly business interruption is avoided, and any risk of reputational harm or financial losses can be minimized.

Proactive business continuity planning is essential to protect and strengthen your organization.

Capabilities to help you create long-term resilience

### 3 Property Risk Management

Safeguard your assets to ensure business continuity and avoid financial losses.

Property risk mitigation can be daunting, with numerous unforeseen dynamics capable of impacting revenue and business operations. From fire, explosions and severe weather events to vandalism and theft, it's essential to identify and assess a diverse range of hazards. Armed with data-driven insights, we identify vulnerabilities and develop loss scenarios to help strengthen your operational resilience. All part of delivering a holistic risk assessment to help protect your property and operations for the long-term.

Operate stronger with highly-informed decisions about risk.

### 4 Casualty Risk Management

Protect your people and secure your operations to confidently manage risk.

Create a safety-first culture for your organization. We work to identify risks and develop tailored strategies that enhance resilience, safety, quality and operational efficiency. Solutions cover the general and product liability areas, from workers' compensation and employee liability, to the commercial fleet management space. Our team brings tech innovation to foster a proactive risk management culture to help reduce the total cost of risk or to avoid losses from even occurring.

A holistic approach to help optimize performance and strengthen brand reputation.
