

Risk Engineering and Advisory Services

Helping companies reduce risk and protect their critical assets in today's volatile world

According to a **2025 Gartner survey**, companies that implemented formal enterprise risk management programs reported a **25% reduction in the frequency of operational claims and incidents** compared to those without structured ERM.

Additionally, these organizations saw a **15% improvement in overall business performance** metrics, including profitability, customer retention and regulatory compliance within the first 18 months of ERM adoption.

Reducing Risk and improving Outcomes

Organizations across industries face risks that are more dynamic and interconnected than ever. Disruptions once considered unlikely, like cyber incidents, extreme weather and supply chain breakdowns, now intersect in ways that challenge even well-prepared businesses. Today's expanding pressures can strain resources, expose unseen vulnerabilities and make it difficult for leaders to maintain continuity and protect their people, assets and operations. To address these challenges, traditional approaches aren't enough; organizations need clarity, adaptability and guidance they can trust.

Zurich Resilience Solutions helps organizations strengthen operations by translating complex risks into practical actions. Our specialists take the time to understand your operations, identify core exposures and support the implementation of tailored solutions that fit your industry, goals and risk profile. Our assessments, training programs and consultation services provide clear, actionable guidance designed to reduce risk and support long-term performance. We help you navigate uncertainty with confidence and capability.

Benefits of Risk Engineering and Advisory Services

Clear Understanding of Your Risk Profile

Identify your most critical exposures, uncover hidden vulnerabilities and gain clarity on how risks interact across your organization.

Enhanced and Sustained Operational Continuity

Maintain critical operations through support from assessments, training and consultation that help you anticipate and adapt to evolving risks.

Increased Safeguards for People, Assets and Facilities

Address safety, health and asset-related risks to help reduce incidents, protect your workforce and safeguard essential infrastructure.

Tailored Solutions and Actionable Insights

Receive focused, goal-aligned guidance that translates complex risks into action steps your teams can implement for sustained resilience.

Long-Term Performance and Risk Reduction

Build sustainable resilience by reducing vulnerabilities over time and supporting stronger operational and financial performance.

Informed Support with Dedicated Account Engineer

Gain experienced guidance from a dedicated account engineer who simplifies complex risks and supports smarter planning, stronger controls and more confident strategic choices.

Risk Solutions Tailored to Support Your Organization

Strengthen your organization with tailored, data-driven solutions that help reduce risk, keep operations moving and protect people and assets. Our experienced risk engineers and consultants work directly with your team to take practical actions and develop operational strategies that support long-term resilience.

Our Risk Management Services Include

Casualty Risk Management

Prevent avoidable injuries, promote well-being and protect your organization from potential legal and financial consequences with thorough risk assessments, tailored health and safety solutions and programs that promote a safer work environment.

CONSULTATION AND ASSESSMENTS INCLUDE: *INDUSTRIAL HYGIENE, ERGONOMICS, WORKPLACE SAFETY, FLEET SOLUTIONS*

Construction Risk Management

Drive safer, more efficient construction projects through data-driven insights and practical solutions that mitigate exposures from safety hazards to weather and supply chain challenges.

CONSULTATION AND ASSESSMENTS INCLUDE: *JOB & SITE SAFETY, VIDEO COACHING, INCIDENT LOSS ANALYSIS*

Machinery Breakdown Risk Management

Improve continuity and control by identifying equipment vulnerabilities early and implementing proactive solutions that prevent costly operational disruptions and promote equipment longevity.

CONSULTATION AND ASSESSMENTS INCLUDE: *JURISDICTIONAL SERVICING, SAFETY SURVEYS, CONDITION MONITORING*

Property Risk Management

Strengthen property safety and performance through tailored insights and practical recommendations that mitigate risks from natural hazards, fire, water damage and other critical threats.

CONSULTATION AND ASSESSMENTS INCLUDE: *FIRE & WATER RISK, DAMAGE RECOVERY SOLUTIONS, BUSINESS VALUATION SERVICES*

Cyber Resilience

Stay ahead of cyber threats with human-driven and AI-support threat intelligence and 24/7 security operations that keep your business and critical data secure from unauthorized access.

CONSULTATION AND ASSESSMENTS INCLUDE: *PROACTIVE ADVISORY SERVICES, 24/7 ACTIVE MONITORING, RAPID INCIDENT RESPONSE*

Extreme Weather Resilience

Enhance your organization's ability to withstand extreme weather by identifying exposures, assessing risks and implementing tailored strategies that protect assets and keep operations running.

CONSULTATION AND ASSESSMENTS INCLUDE: *CLIMATE SPOTLIGHT, NATURAL HAZARDS SOLUTIONS, REGULATORY REPORTING*
