

Onsite Advanced Practitioners: Superior Care and Direct Oversight

Experienced Nurse Practitioners and Physicians Assistants are among the most important health care providers in industrial settings. Their unique skill-sets bring best-in-class injury care to worksites with ongoing case management, provide medical surveillance, and wellness opportunities regardless of industry.

Pivot Onsite Innovations' Advanced Practitioners' unparalleled expertise results in cost saving for your company and provides valuable benefits to keep your employees engaged.

We provide our partner clients and their employees with the highest level of specialization possible, all in compliance with OSHA regulatory standards.

- ✔ On-site medical injury care with ongoing medical management
- ✔ Post-offer physicals
- ✔ Return to work medical clearance examinations
- ✔ Acute non-Occupational urgent care medical management
- ✔ Case management of employee injuries and illnesses
- ✔ Chronic disease screening, education, and support
- ✔ Hearing conservation and respiratory programs
- ✔ Lead, silica, and other hazardous material exposure surveillance

Gatekeepers of Health

Pivot Onsite Innovations knows that industrial workers need individualized care. Our Advanced Practitioner team works to create and facilitate programs specifically for the industries we serve. Advanced Practitioners identify both unique and familiar challenges and innovate better solutions.

Ensuring a Path to Success with Advanced Practitioners
